SHOWCASING *THE INGENUITY OF* INVENTORS

After a 12-year hiatus, our Inventors Fair returned in 2025, drawing 30 finalists to Winnipeg to share their creations.

We're proud to support the tinkerers and inventors — who create, inspire and innovate — with tools, equipment and other products featured in our catalogue.

Check out our Project Showcase, where you can share your latest creation or find inspiration, at **projectshowcase.com**

HOSE CUTTING, CLEANING AND CRIMPING

***For all new hydraulic hose and fittings purchased at Princess Auto.**

High-Tensile Yarn-Reinforced Suction Hose by the Foot

- Resistant to vacuum-induced collapse, which can result in pump cavitation.
- Reinforced with 4 spirals of high-tensile yarn.
- Pressure Rating (PSI): 250
- Temperature Rating: -29 to 71°C (-20 to 160°F)

Inside Diameter (in.)	Outside Diameter (in.)	Flow Rate (GPM)	ITEM	PRICE/ft
3/4	1-1/8	7	**8017996**	**5.99***
1	1-1/2	12	**8018030**	**7.99***

*Available in-store only

Wire-Helix-Reinforced Suction Hose by the Foot

- Black hose cover made of abrasion- and weather-resistant neoprene rubber. Reinforced with a heavy-wire helix embedded between layers of synthetic textile cords.
- Pressure Rating (PSI): 150
- Temperature Rating: -40 to 110°C (-40 to 230°F)

Inside Diameter (in.)	Outside Diameter (in.)	Flow Rate (GPM)	ITEM	PRICE/ft
1-1/4	1-1/2	22	**8150823**	**11.99***
1-1/2	2	27	**8017987**	**13.99***

*Available in-store only

Balflex®

2-Wire Braided Hydraulic Hose by the Foot

- Two braids of high-tensile steel wire (SAE 100R16) for high-pressure applications and an oil-, weather- and abrasion-resistant synthetic rubber cover.
- Temperature Rating: -40 to 100°C

Inside Diameter (in.)	Pressure Rating (PSI)	Flow Rate (GPM)	ITEM	PRICE/ft
1/4	6,500	.27	**9310509**	**3.49***

LET OUR HYDRAULICS TEAM BE OF SERVICE TO YOU!

Our Hydraulics section has evolved, with an expanded selection of products to meet all your hydraulic needs.

We offer a huge selection of cylinders, power units, reservoirs, filters, gauges, coolers, valves, manifolds, pumps, motors, hoses, fittings, connectors, thread seal tape and, of course, hydraulic oil. Need expert advice?

Our Hydraulics Team goes through a comprehensive training program focusing on hydraulic systems, design and troubleshooting. These Team Members earn an in-house hydraulics certification after successfully completing both a hands-on exam and written test.

COME SEE US - WE HAVE THE SOLUTION.

THREADED HEAD UTILITY CYLINDERS

DOUBLE-ACTING VS. SINGLE-ACTING CYLINDERS

Can a double-acting hydraulic cylinder be used in a single-acting application? By installing a breather plug in one port to prevent airborne contaminates from entering the cylinder our double-acting cylinders can be converted to single acting.

12V DC POWER UNITS

MADE IN S. KOREA

Hydro-Tek

12V DC Basic Hydraulic Power Unit

- For truck hoists, dump trailers, mobile cranes, boom equipment, etc.
- Flow Rate @ 3,000 PSI (GPM): 0.66
- Relief Valve Setting (PSI): 3,000
- Relief Valve Range (PSI): 1,000 to 3,000
- Connection Size: 6
- Connection Type: ORBF
- Remote Included: No

8367708 **349.99**

Hydro-Tek MADE IN S. KOREA

12V DC Bi-Directional Hydraulic Power Unit

- For plow blades on ATVs or small tractors, small dump trailers, recreational vehicles and clamping devices.
- Draws less current, so it will work on small batteries. Bi-directional motor design eliminates the need for a directional control valve.
- Use With: 8364937 Reversing Contactor
- Flow Rate @ 3,000 PSI (GPM): 0.37
- Relief Valve Setting (PSI): 3,000
- Relief Valve Range (PSI): 1,000 to 3,000
- Connection Size: 4
- Connection Type: ORBF
- Reservoir Size (gal.): 3/4
- Remote Included: No

8478166 **499.99**

POWERFIST MADE IN S. KOREA

12V DC Double-Acting Lifting Hydraulic Power Unit

- Designed for lifting applications, including dump boxes, dump trailers, scissor lifts, etc.
- Built-in return-flow metering controls the lowering speed and eliminates chatter.
- Power up – hold under load – power down.
- Handheld remote control gives the operator a wide range of movement.
- Flow Rate @ 3,000 PSI (GPM): 0.66
- Relief Valve Setting (PSI): 3,000
- Relief Valve Range (PSI): 1,000 to 3,000
- Connection Size: 6
- Connection Type: ORBF
- Reservoir Size (gal.): 1
- Remote Included: Yes

8582769 **599.99**

POWER UNIT PARTS & ACCESSORIES

Hydro-Tek® World's best hydraulic products KOREA

MADE IN S. KOREA

A

A) 12V DC D03 Directional Control Valves

- For mobile and industrial equipment that requires a directional control valve with electrical actuation.
- Pressure Rating (PSI): 4,480
- Flow Rate (GPM): 16

	Type	ITEM	PRICE
A	Tandem-centre cylinder spool	8512436	129.99
	Closed-centre cylinder spool	8512626	129.99
	Closed-centre motor spool	8512634	129.99
	H-Spool	8512642	129.99

B

B) 12V DC Unloading Valve

Use with Hydro-Tek single-station D03 manifold block(s) when adding the closed-centre D03 valves to provide a pump to tank passage (open centre).

8540049 ..... **129.99**

C

C) Single-Station D03 Manifold Block

This parallel circuit manifold block mounts onto multi-function power units to enable the use of D03 directional control valve(s). It's complete with the bolts and plugs, so 1, 2 or 3 manifolds can be mounted. It can also be used with the 8600900 manifold block adapter plate to create a standalone 1- to 3-station D03 manifold.

8371155 ..... **54.99**

D

D) D03 Valve Manifold Block Adapter Plate

- Use with the Hydro-Tek D03 manifold block(s) (8371155) to create a standalone 1- to 3-station D03 manifold.
- Easily add or remove sections as required. Quick bolt-together design.

8600900 ..... **44.99**

9 GPM Modular Pilot-Operated Check Valve

- Pressure Rating (PSI): 3,620
- Connection Size: Cetop-3
- Connection Type: Modular
- Cracking Pressure (PSI): 4.35

NEW!

9509530 ..... **49.99**

12 GPM Modular Relief Valve

- Pressure Rating (PSI): 3,620
- Connection Size: Cetop-3
- Connection Type: Modular
- Relief Valve Setting (PSI): 1,020, 2,030 and 3,625
- Relief Valve Range (PSI): 0 to 3,620

NEW!

9509522 ..... **49.99**

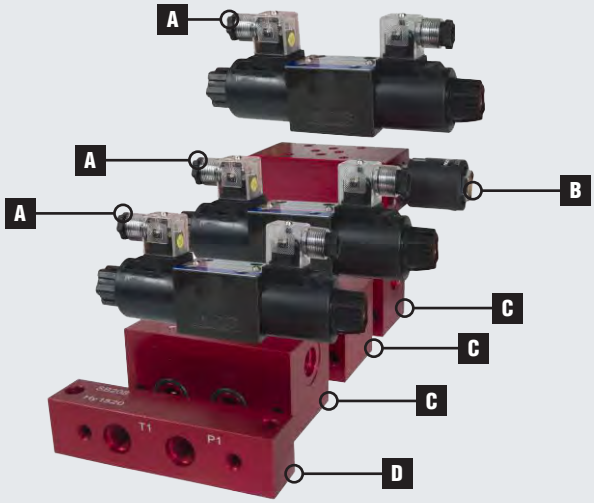
12 GPM Modular Throttle Metre-In Valve

- Pressure Rating (PSI): 3,620
- Connection Type: Modular

NEW!

9509548 ..... **49.99**

D03 VALVE MANIFOLD ASSEMBLY



- Electrically control your hydraulic cylinders and motors
- From 1 to 3 D03 valves
- Easy to assemble

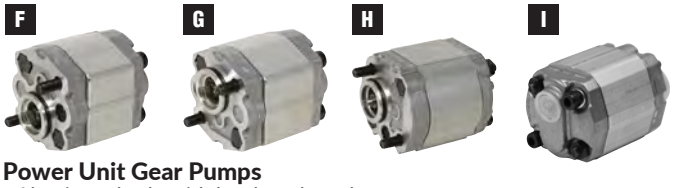
E

E) Power Unit Spacer Block

- Mount under the D03 power unit manifold block(s) to provide additional clearance from the reservoir and other power pack components.
- Use With: 8371155

8371072 ..... **24.99**

F G H I



Power Unit Gear Pumps

- Aluminum body with hardened steel gears.
- Use with the Hydro-Tek AC, DC and gas power units to increase or decrease flow rates.
- Note: Not for use with power units 8478166 and 8367708.
- Speed Rating (RPM): 1,000 to 6,000

12V DC Power Unit Motor Start Solenoid

Replacement motor start solenoid for Hydro-Tek power units.

8371221 **49.99**

MULTI-FUNCTION HYDRAULIC POWER UNITS

Easy to assemble for a multitude of different applications.

Add electrically operated D03 valves.

12V DC Reversing Contactor

- Amperage Rating (A): 100
- On Time (minutes): 15
- For Use with: Bi-rotational power unit 8478166.
- Easily reverse the polarity of your 12V DC circuit.

8364937 **149.99**

TECH TIP

Remote Valve Control
By using a remote valve control with a cable and valve attachment kit, you can control a directional control valve up to 13 feet away. This opens up many new ways and locations you can mount your directional control valve.

MADE IN CANADA

Hydraulic Power Unit Mounting Plate
- Use as a base to build a custom power pack. Mount gas or electric power units, reservoirs up to 15 gallons, valving, etc. Constructed with 10-gauge steel.
- Mounting plate only. Gas engine and reservoir sold separately.

8696734..... **149.99**

PTO Pumps
- Ideal for use with front-end loaders on tractors without integral hydraulics, landscape equipment and backhoes. Slips onto tractor's PTO shaft; no gearbox required. Self-adjusting wear plates on both sides of the gears reduce wear and expansion.
- Pressure Rating (PSI): 2,500
- Connection Size: Inlet: 16/Outlet: 12
- Connection Type: ORBF
- Speed Rating (RPM): 540
- Shaft Diameter (in.): 6-tooth spline 1-3/8

Hydro-Tek — MADE IN S. KOREA

Aluminum-Body Hydraulic Gear Pumps

- Constructed with high-strength aluminum housing and cast-iron end covers. Ideal for a wide variety of applications, including material handling, aerial lifts, turf care, agriculture and construction.
- Clockwise rotation is reversible with minor changes to pump configuration (instructions are included).
- SKU 8428559 conversion kit is available to make it into a unidirectional motor.
- This pump must be direct driven. Any sideload will damage the pump.
- Shaft Diameter (in.): 3/4
- Mounting Type: 2-Bolt SAE A

ONGOING COMMITMENT TO TRAINING

Princess Auto offers a comprehensive hydraulics training program to our Team Members. The program objectives include hydraulic systems, design and troubleshooting at various levels of experience. Team Members are able to earn certification after completing both a hands-on practical application and a written test to verify their technical competency.

HydroWORKS™

For Use with MD30 directional control valves:

MD30 Closed Centre Plug
Use to convert the valve to a closed centre.
The return port on the side of the valve must be connected to the tank when using this plug.
8410912 ..... **14.99**

MD30 Power Beyond Plug
- Use with the valve to add additional valves downstream. The return port on the side of the valve must be connected to the tank when using this adapter.
- Thread Size: 10 ORBF

8575474 ..... **16.99**

MD30 Handle Kit
This directional control valve handle kit comes with all the parts you need to replace a damaged or worn valve handle.
8699969 ..... **29.99**

MD30 Detent Kit
Provides 3-position detent functionality.
8510281 ..... **54.99**

A

B

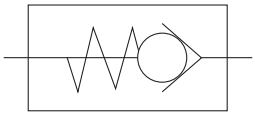
PRO POINT

High-Pressure Needle Valves

- Corrosion-resistant aluminum body with hardened-steel poppet and seat.
- Use to restrict or shut off hydraulic flow within a hydraulic circuit. The back pressure created by this valve must be taken into account when designing your application. The incoming oil flows from the inlet port to the outlet port. Turning the handle clockwise will gradually restrict the flow until it is shut off.
- Pressure Rating (PSI): 3,000
- Connection Size: 8
- Connection Type: ORBF

	Flow Rate (GPM)	ITEM	PRICE
A	12	**8689507**	**49.99**
B	30	**8689515**	**89.99**



Line Check Valves

- Permits oil flow in 1 direction only.
- Poppet style for less leakage than standard ball types.
- Used to isolate a circuit, provide component protection (i.e., cooler bypass)
- Pressure Rating (PSI): 5,000
- Connection Type: NPTF
- Cracking Pressure (PSI): 75

Flow Rate (GPM)	Connection Size	ITEM	PRICE

C

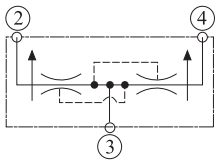
D

PRO POINT

Rotary Gear Flow Divider/Combiners

- Designed to raise and lower unequal loads at the same speed. Built-in differential relief valves to synchronize cylinders and protect against excessive differential pressure. Efficient design resulting in very little pressure drop or heat generation.
- Use to lift tables, levelling legs, presses, shearing machines, etc.
- Pressure Rating (PSI): 3,500
- Connection Size: 10
- Connection Type: ORBF

	Type	Flow Rate (GPM)	ITEM	PRICE
C	2-Section	2.9 to 13.2	**8524852**	**279.99**
D	3-Section	9 to 18	**9077561**	**399.99**



PRO POINT

Spool Style Divider/Combiner Flow Control Valves

- Corrosion-resistant aluminum body.
- Pressure compensated to divide/combine flow regardless of pressure differences.
- Use to extend/retract 2 cylinders at the same speed or run 2 motors at the same RPM. The incoming oil flow will be equally divided or combined between the 2 outlet ports.
- Pressure Rating (PSI): 3,000
- Connection Type: ORBF

Flow Rate (GPM)	Connection Size	ITEM	PRICE

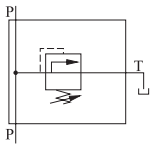
- Continuous-duty solenoid for extended use
- Pressure Rating (PSI): 3,000
- Inlet Port(s): 8 ORBF
- Outlet Port(s): 8 ORBF

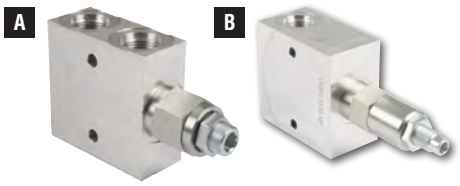
E

F

	Type	Flow Rate (GPM)	Application	ITEM	PRICE
E	2-Position, 2-way normally closed	10	Use to turn the hydraulic oil flow off or on within the hydraulic system. The incoming oil flow is shut off but flows through the valve when the coil receives power.	**8688822**	**89.99**
	2-Position, 2-way normally open	6	Use to turn the hydraulic oil flow off or on within the hydraulic system. The incoming oil flows through the valve but shuts off when the coil receives power.	**8688830**	**89.99**
	2-Position, 3-way	6	Use to switch the incoming hydraulic oil flow between 2 hydraulic circuits. The incoming oil flows through 1 outlet port then switches to the other outlet port when the coil receives power.	**8688848**	**119.99**
	2-Position, 4-way	6	Use to extend/retract a hydraulic cylinder or reverse a hydraulic motor. There is no neutral position, so the motor will always be in motion and the cylinder will always be under pressure. When the coil receives power, the valve will shift and reverse the oil flow to the cylinder or motor.	**8688855**	**139.99**
F	3-Position, 4-way tandem centre	5	Use to extend and retract a hydraulic cylinder or reverse a hydraulic motor. The incoming oil flow will travel from pump to tank when the coils receive no power. When either coil receives power, the valve will shift and reverse the oil flow to the cylinder or motor.	**8688863**	**199.99**

HYDRAULIC ACCESSORY VALVES



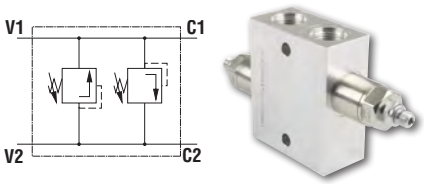


PRO POINT

Adjustable Relief Valves

- Corrosion-resistant aluminum body with hardened-steel components.
- Rapid response to pressure spikes provides protection to hydraulic components.
- Use to control your system pressure and the max. force of hydraulic cylinders or motors. The incoming oil flows through the relief valve unless the max. pressure setting is exceeded, then oil will flow back to the reservoir.
- Pressure Rating (PSI): 3,000
- Connection Type: ORBF
- Connection Size: 8
- Relief Valve Setting (PSI): 2,100

	Flow Rate (GPM)	Relief Valve Range (PSI)	ITEM	PRICE
A	10	50 to 3,000	**8688939**	**69.99**
B	30	400 to 3,000	**8688947**	**69.99**

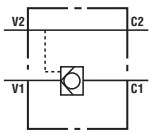


PRO POINT

Cross Over Relief Valves

- Corrosion-resistant aluminum body with hardened-steel components.
- Rapid response to pressure spikes provides protection to hydraulic components.
- Use to protect your hydraulic cylinder/motor, hoses, pump, etc. from high-pressure spikes caused by shock loads. Place in between your directional control valve and cylinder/motor, so the pressure spike can go over the relief to the low-pressure side of the circuit.
- Pressure Rating (PSI): 3,000
- Connection Type: ORBF
- Connection Size: 8
- Relief Valve Setting (PSI): 2,100

Flow Rate (GPM)	Relief Valve Range (PSI)	ITEM	PRICE
10	50 to 3,000	**8688954**	**119.99**
30	400 to 3,000	**8689226**	**129.99**

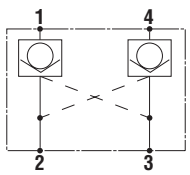


PRO POINT

6 GPM Single Pilot-Operated Check Valve

- Corrosion-resistant aluminum body with hardened-steel poppet and seat.
- Low leakage provides positive load holding. Use to lock a hydraulic cylinder in 1 direction. It will hold up a load and prevent it from drifting down. Also prevents the load from falling if a hose fails. Place in between the directional control valve and cylinder. When the control valve is in neutral and the check closes, the cylinder will be locked in position.
- Pressure Rating (PSI): 3,000
- Connection Size: 8
- Connection Type: ORBF
- Cracking Pressure (PSI): 25

8689218 **69.99**

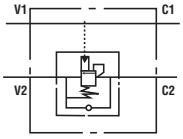


PRO POINT

Dual Pilot-Operated Check Valves

- Corrosion-resistant aluminum body with hardened-steel poppet and seat.
- Low leakage provides positive load holding. Use to lock a hydraulic cylinder in both directions. It will prevent the cylinder from retracting or extending when under load. Also prevents the load from falling if a hose fails. Place in between the directional control valve and cylinder. When the control valve is in neutral and the checks are closed, the cylinder will be locked in position.
- Pressure Rating (PSI): 3,000
- Connection Size: 6
- Connection Type: ORBF

	Flow Rate (GPM)	ITEM	PRICE
C	5	**8689234**	**99.99**
D	13	**8689465**	**119.99**

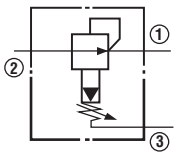


PRO POINT

10 GPM Counterbalance Valve

- Corrosion-resistant aluminum body with hardened-steel poppet and seat.
- Low leakage provides positive load holding. Use to control the rate of descent and prevent chatter in cylinder load lowering applications, including truck boxes, tilt bed trailers and cranes. Also prevents the load from falling if a hose fails.
- Place in between the directional control valve and cylinder. Full oil flow will extend the cylinder and a metered controlled flow will lower the cylinder.
- Note: The spool in the control valve should have the work ports connected to the tank in neutral to prevent a buildup of pressure from spool leakage that could cause the poppet in the counterbalance valve to open and the load to drop.
- Pressure Rating (PSI): 3,000
- Adjustable Pressure Range (PSI): 1,450 to 3,000
- Preset Pressure (PSI): 2,100
- Pilot Ratio: 4.1:1
- Connection Size: 8
- Connection Type: ORBF

8689473 **119.99**



PRO POINT

8 GPM Pressure Reducing Valve

- Corrosion-resistant aluminum body with hardened-steel spool and sleeve.
- Use to limit the hydraulic pressure within part of the hydraulic circuit to decrease the force produced by a hydraulic cylinder or motor. Place before the cylinder or motor that requires the reduced pressure. The pressure can be adjusted to the desired setting.
- Pressure Rating (PSI): 3,000
- Adjustable Pressure Range (PSI): 400 to 2,100
- Preset Pressure (PSI): 2,100
- Connection Size: 8
- Connection Type: ORBF

8689499 **99.99**

FITTING THREAD TYPES

All fittings/adapters feature steel construction.

NPT *(NATIONAL PIPE THREAD)*		Tapered thread, sealant is required for a good seal.	**ORFS** *(O-RING FACE SEAL)*		O-ring seals between machined groove and fitting face.
JIC *(JOINT INDUSTRY COUNCIL)*		Flare seats against opposite flare in the port.	**BSP** *(BRITISH STANDARD PIPE)*		Tapered thread, sealant is required for a good seal.
ORB *(O-RING BOSS)*		O-ring seals against a machine seat in the port.	**METRIC**		Straight thread, bonded seal required if attached to a port.

TECH TIP

A hydraulic oil reservoir needs to be 2 to 3 times larger than the max. flow rating of the system on mobile applications. Industrial or stationary setups allow for a large capacity.

MADE IN CANADA

Enviro Plus 46 Hydraulic Oil

- Can be used in industrial, farm, marine and forestry equipment.
- A biodegradable, multigrade vegetable-based hydraulic oil that provides an environmentally safe solution for equipment operators working in environmentally sensitive areas. It has excellent seal compatibility and provides anti-wear and anti-oxidation protection.
- Not suitable for equipment requiring 1 lubricant for the transmission, final drive, wet brakes and hydraulic system.
- Min. Start-Up Temperature Rating: -22°C (-7.6°F)
- Container Size: 20 litre
- *Available in-store only*

8614224 **149.99**

IT'S MORE THAN JUST OIL. IT'S LIQUID ENGINEERING.® Castrol — MADE IN CANADA

Universal Tractor Hydraulic Fluid

- Premium hydraulic/transmission fluid for farm and industrial tractor transmission, differentials and immersed disc brakes.
- Contains anti-wear, extreme pressure, anti-oxidant and friction control additives and foam and corrosion inhibitors.
- Excellent water tolerance, gear wear protection and low temperature performance.
- Min. Start-Up Temperature Rating: -22°C (-7.6°F)
- Container Size: 18.93 litre
- *Available in-store only*

9049552 **149.99**

MADE IN CANADA — POWERFIST

Hydraulic Oil Viscosity Improver Synthetic Blend

- Lower the pour-point temperature of hydraulic and gear oils for improved cold-weather performance without changing the oil's high-temperature properties.
- Recommended for hydraulics, transmissions and differentials.
- The recommended mix ratio is up to 15% of original fill.
- Container Size: 1 litre

8339822 **14.99**

IT'S MORE THAN JUST OIL. IT'S LIQUID ENGINEERING.® Castrol — MADE IN CANADA

Dual Range HV 46 Hydraulic Oil

- Uses an ashless (zinc-free) additive system designed to meet and exceed the most exacting performance standards.
- Exhibits excellent corrosion protection as well as outstanding thermal and oxidative stability.
- Intended for severely stressed hydraulic systems requiring a high level of anti-wear performance and fine filtration.
- Excellent hydrolytic stability and separates rapidly from water contamination.
- Min. Start-Up Temperature Rating: -22°C (-7.6°F)
- Container Size: 18.93 litre
- *Available in-store only*

9049545 **149.99**

IRVING — MADE IN CANADA

10W Heavy Duty Hydraulic Oil

- High-zinc formula that is ideal for heavy equipment, including Caterpillar hydraulic systems and hydrostatic transmissions.
- Designed to hold onto water – unlike typical hydraulic oils that will separate from water. This prevents damage to the hydraulic system's pumps and other components.
- Do not use in engines or drivetrain components.
- Container Size: 18.9 litre
- *Available in-store only*

9205758 **149.99**

Castrol — MADE IN CANADA

Hyspin Hydraulic Oil

- Premium industrial anti-wear hydraulic oil for equipment that utilizes high-performance pumps.
- Contain very effective anti-wear additives that allow them to meet or exceed industry gear, vane, radial piston, and axial piston pumps manufacturers specifications.
- Container Size: 18.9 litre

Donaldson Filtration Solutions

A

B

C

A) Cellulose Hydraulic Filter Elements

- The cleanliness factor is the expected increase in performance as a multiplier over baseline cellulose filtration.
- Cellulose media provides effective filtration for a wide variety of petroleum-based fluids.

Length (in.)	Beta Ratio	Micron Rating (micron)	Average Cleanliness	Cleanliness Factor Expectation	Filter Thread Size	ITEM	PRICE
3.26	2/1,000	7/23	23/20/14	1	3/4 in.-16 UN	**8155327**	**24.99**
5.35	2/1,000	7/23	23/20/14	1	1 in.-12 UN	**8038651**	**24.99**
7.87	2/1,000	7/23	23/20/14	1	1 in.-12 UN	**8199051**	**34.99**
6.66	2/1,000	7/23	23/20/14	1	1-1/2 in.-16 UN	**8038704**	**44.99**
10.66	2/1,000	7/23	23/20/14	1	1-1/2 in.-16 UN	**8155335**	**69.99**

B) Synteq Hydraulic Filter Elements

- The cleanliness factor is the expected increase in performance as a multiplier over baseline cellulose filtration.
- The Synteq media's uniform synthetic fibre structure delivers a higher filtration efficiency than cellulose which removes more dirt and contaminants quicker. The smooth, rounded fibres provide low resistance to fluid flow, making the hydraulic system more efficient.

Length (in.)	Beta Ratio	Micron Rating (micron)	Average Cleanliness	Cleanliness Factor Expectation	Filter Thread Size	ITEM	PRICE
5.35	1,000	11	19/17/13	16x	1 in.-12 UN	**8241218**	**64.99**
7.87	1,000	11	19/17/13	16x	1 in.-12 UN	**8038642**	**79.99**
10.7	1,000	11	19/17/13	16x	1-1/2 in.-16 UN	**8283368**	**149.99**

C) Water Absorbing Hydraulic Filter Elements

- Water-absorbing media is formulated with absorbents and resins to remove moisture and condensation from petroleum-based fluids.
- Water concentrations in hydraulic oil as low as .1% can accelerate component wear by as much as 50%. If the hydraulic oil is cloudy, it could have a water concentration of 1% or higher and needs to have the water removed immediately to prevent component damage or failure.

Length (in.)	Beta Ratio	Micron Rating (micron)	Filter Thread Size	ITEM	PRICE

PRO POINT

Oil Temperature/Level Gauge

- Mounts on the reservoir for easy oil monitoring.
- Connection Size: M12
- Connection Type: Metric
- Scale: Celsius
- Temperature Rating: 20 to 70°C

8900250 **19.99**

PRO POINT

-30-0-30 PSI Glycerine Filled Pressure Gauge

- Glycerine protects against pulsating and vibration, and reduces erratic needle movement. The stainless-steel body and brass coupler protect against corrosion.
- Nominal Dial Size (in.): 2-1/2
- Connection Size: 1/4 in.
- Connection Type: NPTM
- Scale: PSI and Kgf/cm²
- Temperature Rating: 0 to 50°C (32 to 122°F)

8651887 **16.99**

PRO POINT

100 PSI Filter Pressure Gauge

- Use with filter heads to show when the filter element needs replacement (return line only).
- Nominal Dial Size (in.): 2-1/2
- Connection Size: 1/8 in.
- Connection Type: NPTM
- Scale: Bar and PSI

8900276 **19.99**

HYDRAULIC OIL COOLERS | SNOWPLOW CYLINDERS

HYDAC

12V DC Air-Cooled Hydraulic Oil Cooler with Bypass

- Ideal for tractors, backhoes, turf equipment, etc.
- Helps cool the hydraulic oil as temperatures over 60°C (140°F) can cause the oil to break down rapidly, which leads to component failure.
- Uses a combination of high-performance cooling elements and a high-capacity 12V DC fan to provide max. cooling.
- Max. Heat Removal (HP): 15
- Max. Heat Removal (BTU/h): 38,207
- Pressure Rating (PSI): 230
- Flow Rate (GPM): 45
- Max. Oil Viscosity (cSt): 2,000 centistoke
- Max. Oil Temperature: 130°C (266°F)
- Bypass Pressure (PSI): 45
- Connection Size: Inlet/Outlet: 16
- Connection Type: ORBF

PNEUMATICS

Pneumatics offer some distinct advantages over hydraulics. They operate in a very clean system, making them suitable for food and other manufacturing processes that require no risk of contamination. They also have cylinders that come in very small sizes, and can extend and retract very quickly. Pneumatic cylinders and valves can dump their compressed air straight to the atmosphere when they change direction, and do not need to send it back to a reservoir. The other big advantage of pneumatics over hydraulics for many people is that it is considerably cheaper to create a system.

Aluminum Pneumatic Double-Acting Cylinders

GAS PRESSURE WASHERS

wetjet

2.5 GPM @ 3,200 PSI Gas Pressure Washer

- Features an onboard detergent tank.
- Onboard nozzle, wand and hose storage.
- Engine Displacement (cc): 212
- Low Oil Shut Down: Yes
- Pump Type: Axial
- Unloader Valve Type: Internal
- Chemical Injector Type: Water tank/non-pressure nozzle
- Nozzle Spray Angle (°): Soap, 0, 15 and 40
- Hose Size: 1/4 in. x 50 ft
- Hose Material: Steel-braided rubber
- Wheel Type: 10 in. foam filled

9413287 **399.99**

POWER

2.3 GPM @ 2,700 PSI Gas Pressure Washer

- Engine Displacement (cc): 196
- Low Oil Shut Down: Yes
- Pump Type: Axial, 3-piston
- Unloader Valve Type: High pressure relief valve
- Chemical Injector Type: Soap nozzle
- Nozzle Spray Angle (°): Soap, 0 and 25
- Hose Size: 1/4 in. x 25 ft
- Hose Material: PVC with M22 hose fittings
- Wheel Type: 7 in. flat-free

9273939 **499.99**

POWER

2.4 GPM @ 3,200 PSI Gas Pressure Washer

- Engine Displacement (cc): 173
- Low Oil Shut Down: Yes
- Pump Type: Axial
- Unloader Valve Type: Reverse pressure
- Chemical Injector Type: Water tank/non-pressure nozzle
- Nozzle Spray Angle (°): 0, 25 and 40
- Hose Size: 1/4 in. x 25 ft
- Hose Material: PVC with M22 fittings
- Wheel Type: 12 in. polypropylene hub

CAT

2 GPM @ 1,800 PSI Electric Pressure Washer

- Features a 5-piston pump
- Built-in handle offers maneuverability.
- Includes 20 ft hose, wash wand with M22 fittings, 4 spray nozzles and 1 foam blaster.
- Voltage Rating (V AC): 120
- Amperage Rating (A): 13
- Unloader Valve Type: Mechanical
- Nozzle Spray Angle (°): 0, 15, 25 and 40
- Hose Size: 1/4 in. x 20 ft
- Cord Length (ft): 25
- Subject to seasonal availability.

9317124 **349.99**

wetjet

1.6 GPM @ 1,500 PSI Wall-Mount Electric Pressure Washer

- Industrial-grade triplex pump.
- Wall-mount frame.
- Intergrated removable soap tank.
- Rubber-coated, steel-braided pressure hose with built-in reel.
- Wand features on-board nozzle storage.
- Detachable pump motor for remote washing jobs.
- Voltage Rating (V AC): 120
- Amperage Rating (A): 15
- Pump Type: Triplex plunger
- Nozzle Spray Angle (°): Soap, 15, 25 and 40
- Hose Size: 1/4 in. x 50 ft
- Cord Length (ft): 25
- Includes: Wand, hose and quick-connect spray nozzles

PRESSURE WASHER NOZZLES

Red (0° pattern) – highly concentrated spray, best for blasting grime off concrete and metallic surfaces.
Yellow (15° pattern) – excellent for heavy duty cleaning of concrete, garage floors, walls, roofs and drains.
Green (25° pattern) – suitable for cleaning decks, walkways, brick patios, furniture, boats or cars.
White (40° pattern) – suitable for delicate surfaces such as stucco walls, home sidings and glossy surfaces.

TECH TIP

Avoid Damaging Surfaces
It is best to start with the wand at least 18 to 24 inches away, and then move closer after you are sure the surface, finish or components can manage the force of the water. Remember to wear eye and ear protection and be safe to wash another day!

Hot Water Pressure Washer Temperature Thermostat
- Keeps the heat right where you want it, regulating burner temperature for steady, efficient cleaning.
- Protects your system by preventing overheating and ensuring consistent performance wash after wash.
- Temperature Rating: 90°C

9505306 **79.99**

Universal Pressure Washer Unloader Valve Kit
- Converts the bolt-on unloader to universal set-up
- Includes bypass hose, inline water filter, hose barbs and coupler
- Max. Pressure Rating (PSI): 4,500
- Max. Flow Rate (GPM): 10.5

9505314 **129.99**

Pressure Washer Unloader Valves
- Act as a bypass for pump flow when the pressure washer-gun trigger is released. Use to adjust pressure output.
- Built-in easy-start valve relieves back pressure during engine startup. Oversized handle for easier adjustment. Forged valve body provides excellent strength.
- Max. Flow Rate (GPM): 10-1/2
- Thread Size (in.): Inlet/outlet: 3/8; bypass: 3/8

Triplex Pump Oil
Non-detergent, 30W formula with anti-wear, rust-inhibiting and deoxidizing additives.
8182123
14.99

Synthetic Axial Pump Oil
A specially formulated synthetic oil with additives to handle the high demands of axial pumps. It's used in all types of pumps, but is necessary in axial pumps.
8162901
14.99

Synthetic Blend Pressure Washer Pump Oil
Non-detergent, 30W formula with anti-oxidizing and rust inhibiting additives. Helps prevent sludge and varnish formation.
8026156
19.99

TECH TIP

Pressure Washer Oil
Pressure washer crankcase oil should be changed at least every 50 hours (or when the manufacturer recommends) to maintain proper crankcase lubrication and cooling. It will also help reduce component wear and extend the life of your pump.

TECH TIP

Log Splitter Wedges

A log splitter wedge slips over the unit's single-blade wedge. A wedge with a 4-way blade splits twice as much wood as one with a 2-way blade, saving you time and effort.

HYUNDAI

18 in. 99cc Gas Snowblower

- Fuel Tank Capacity (gal.): 0.37
- Start Type: Recoil
- Auger Diameter (in.): 7
- Max. Throwing Distance (ft): 20
- Wheel Size (in.): 7
- Chute Turning Radius (°): 190
- Subject to seasonal availability.

9254210 **699.99**

HYUNDAI

24 in. 212cc Gas 2-Stage Snowblower with Electric Start

- Fuel Tank Capacity (gal.): 0.58
- Auger Diameter (in.): 12
- Max. Throwing Distance (ft): 40
- Number of Speeds: 6
- Wheel Size (in.): 13
- Chute Turning Radius (°): 190
- Subject to seasonal availability.

9254228 **1199.99**

HYUNDAI

24 in. 212cc Gas 2-Stage Pro Snowblower with Electric Start and LED Headlights

- Heated handle grips keep your hands warm
- Fuel Tank Capacity (gal.): 0.75
- Start Type: Electric
- Auger Diameter (in.): 12
- Max. Throwing Distance (ft): 40
- Number of Speeds: 6 forward; 2 reverse
- Wheel Size (in.): 14
- Chute Rotation: Dash-mounted hand crank
- Chute Turning Radius (°): 190
- Subject to seasonal availability.

9149717 **1299.99**

HYUNDAI

28 in. 375cc Gas 2-Stage Tracked Snowblower with Power Steering

- OHV engine delivers reliable power.
- Rubber tracks provide outstanding traction on various terrain.
- In-dash headlight helps you to clear snow in low-visibility conditions.
- Fuel Tank Capacity (gal.): 1.5
- Start Type: Electric/recoil
- Auger Diameter (in.): 12
- Max. Throwing Distance (ft): 49
- Number of Speeds: 6 forward; 2 reverse
- Chute Rotation: Side-mounted hand crank
- Chute Turning Radius (°): 190
- Subject to seasonal availability.

RED ROCK

270cc Towable Excavator

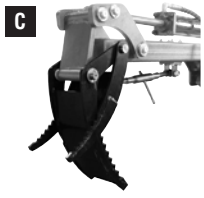
- Versatile and powerful, this machine blends performance and convenience to handle tasks like trenching, tree planting, landscaping, lifting, demolition and more.
- Self-contained hydraulic power system delivers strong, reliable performance for demanding, labor-intensive jobs.
- Designed for easy towing: Take it anywhere by ATV, UTV or pickup truck.
- Digging Depth (ft): 7
- Reach From Swing (ft): 8
- Bucket Width (in.): 13-1/2
- Trailer Coupler Size (in.): 2
- Wheel Size (in.): (7.50-8) 16
- Available in-store only

8936726 ..... **4999^{99}**

420cc Crawler Excavator, Special Order Only

- Powerful 15 HP OHV engine featuring electric start and low-oil shutdown.
- Battery level display.
- Boom Swing Angle Range: 360°
- Max. Grade Angle: 30°
- Platform rotation speed: 6-1/2 RPM
- Max reach: 84-1/2 in. overloading height and 66 in. dumping height.
- Overall width: 32-1/2 in.
- Adjustable dozer blade with load capacity of 260 lb (blade up) and 617 lb (blade down) when arm is fully extended.
- Ergonomic hydraulic controls with a flow rate of 3.5 GPM and operating pressure of 2,300 PSI.
- Digging Strength (lb): 992
- Digging Depth (ft): 4-3/4
- Reach From Swing (ft): 8-1/2
- Bucket Width (in.): 8
- Available in-store only

9208604 ..... **9999^{99}**



Excavator Accessories

- Rugged steel construction.
- Designed for various landscaping, logging, grading and material moving tasks.

420cc Mini Loader Skid Steer

- Designed for work in narrow environments and hard-to-reach areas, this machine has a small 52 in. (1.3 m) turning radius, and hinge pin height of 83 in. (2.1 m) to allow loads to be lifted up and over the side of a dumpster or truck.
- Includes hydraulic accessory circuit with quick-connect attachment fittings for powering attachments, and an oil cooler with electric fan.
- Rated Operating Capacity: 400 lb
- Hydraulic pump flow rate: 5 GPM @ 3,000 RPM/25 MPa
- Theoretical Horsepower (HP): 15
- Fuel Tank Capacity: 6.5 litres
- Bucket Size (in.): 39-1/4
- Lift Height (in.): 83
- Wheel Type: Rubber track
- Includes: Standard bucket

8825903 **529.99**

X-POWER

79cc Plate Compactor

- Ideal for trench compaction, landscaping, driveway toppings, brick paving and road maintenance.
- Vibration Frequency (VPM): 5,210
- Travel Speed (ft/min): 50
- Compaction Force (lb): 2,000
- Compaction Area/Hour (sq. ft): 2,690
- Compacting Plate Dimensions: 17L x 11-7/8W

9035155 **599.99**

POWERFIST

212cc Plate Compactor

- Paving pad prevents the compactor from damaging or scuffing concrete pads, paving stones, bricks, etc.
- Vibration Frequency (VPM): 5,500
- Travel Speed (ft/min): 65
- Compaction Force (lb): 3,950
- Compaction Area/Hour (sq. ft): 6,706
- Compacting Plate Dimensions: 21-1/2L x 17-3/4W
- Includes: Paving pad and 4 in. wheel kit

9033598 **999.99**

PRO-POINT POWERED by HONDA

Plate Compactors

- Heavy duty shock mounts prevent component wear and reduce operator stress and fatigue.
- Lifting hook for easy handling and placement.
- Engine Type: Honda GX160
- Engine Displacement (cc): 163
- Travel Speed (ft/min): 66 to 82

Honda IGX Gas Engines

- Honda V-Twin iGX EFI engines auto-adjust the fuel/air ratio via temperature and MAP sensors, eliminating manual choke and throttle use for easier starts.
- Variable timing with digital CDI ignition.
- Hemispherical combustion chamber featuring a 9.1:1 compression ratio .
- Forged steel crankshaft with pressure-fed crankshaft bearings.
- High-capacity oil pump with low-oil shutdown protection.
- Automotive-type spin-on oil filter.
- High-capacity 36-blade cooling fan.
- Easy-to-read LED diagnostic indicator and digital hourmeter.
- Communication for diagnosis of the engine utilizes Dr.H software. Linked via USB port to a tablet or PC for quick repairs

ECOFLOW

160W Portable Solar Panel
- Monocrystalline silicon panel featuring a 21 to 22% high-conversion efficiency rating.
- Portable, 1-piece folding design.
- EcoFlow MPPT power station algorithm delivers improved performance in cold and cloudy environments.
- Self supporting when set up.
- Can be run in series or in parallel.
- Cells feature protective ETFE film and and IP68 rating against moisture.
- Compatible with portable power stations *9223975*, *9223983* and *9467341*.
- Voltage Rating (V DC): 21.4
- Size (in.): 61-3/4L x 26-3/4W x 1T
- Includes: MC4 connector cable

9223991 ..... **449.99**

ECOFLOW

300W Portable Power Station

- LFP (Lithium Iron Phosphate) battery with 256Wh capacity and a 300W output.
- Charge 0 to 100% in only 60 mins.
- Safe and reliable for 10 years of use.
- Run up to 99% of your consumer electronics.
- Charging can be performed by AC, car, solar or USB-C.
- Grab-and-go-power.
- Essential home backup with a 30 ms switch-over mode.
- Easily portable at 7-3/4 lb.
- Smart app control with Bluetooth or Wi-Fi.
- Includes: AC charging cable and car charging cable
- Available in-store only

9223975 **399.99**

800W Portable Power Station

- LFP (Lithium Iron Phosphate) battery with 768Wh capacity and an 800W output.
- Provides up to 1.8kWh a day with solar charging and 10 years of use.
- Charging can be performed by AC, car, solar or USB-C.
- Charge from 0 to 100% in only 70 minutes. That's 5 times faster than other portable power stations available on the market.
- Provide home backup with a 30 ms switch-over mode to keep essential devices functioning.
- Easily portable at 17 lb.
- Smart app control with Bluetooth or Wi-Fi.
- Includes: AC charging cable, car charging cable and DC5521 connection cable
- Available in-store only

9223983 **669.99**

Delta 3 Plus Portable Power Station

- Continuous Output Power (W): 1,800
- Capacity: 1,024Wh
- Charge Time: 56 min.
- Ports: Six 1,800W outlets, two 500W solar ports, 2 USB-C 140W, 2 USB-A 36W, 1 car output 12.3V and 2 DC5521 12.6V
- Includes: AC charging cable and car charging cable
- Available in-store only

HYUNDAI

Gas Inverter Generators

- Inverter generators supply clean AC power to safely run electronic devices such as televisions, computers and microwaves.
- ECO control saves on fuel and reduces noise by dynamically meeting the electrical load and idling when the load is removed.
- Features a low oil indicator light and shutdown to prevent engine damage when the oil level reaches an unsafe limit.
- An overload indicator light will quickly show if it is producing more power than the running wattage or a connected appliance is short-circuited.
- Low Oil Shut Down: Yes

TECH TIP

Extension Cords

Make sure your extension cord is rated to handle the wattage of the device you'll be using it with. A cord's gauge indicates its size: the smaller the number, the larger the wire and the more electrical current the cord can safely handle. And be sure to choose cords with polarized or three-prong plugs.

RELIANCE

30A Through-the-Wall Generator Kit

- Everything you need to create a lite generator power panel inside your home, quickly, easily and safely. Brings emergency back-up power safely inside and keeps toxic generator exhaust and carbon monoxide outside.
- Includes: One each of 6-outlet pre-wired indoor generator power panel, 30A outdoor power inlet box, 12 in. rigid PVC conduit, 1 in. drill bit, 2 waterproof gaskets and mounting hardware with instructions.
- Voltage Rating (V AC): 125/250

TECH TIP

Transfer Switches

Spread high-draw appliances (like space heaters or microwaves) across different circuits on your transfer switch. This keeps your generator from bogging down and helps fuel last longer. Label the essential circuits on your transfer switch before an outage hits. When the lights go out, you'll restore power faster and avoid accidentally overloading the generator.

RELIANCE

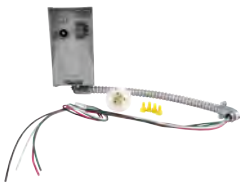
30A 3-Prong to 4-Receptacle Twist Lock Generator Cord Adapter

- Use to connect a generator 120V, 30A (L5-30) outlet to a 120/240V, 30A (L14-30) generator cord.
- Rugged all-weather construction with 10 gauge wire.
- Power indicator light on connector end.
- Overall Length: 12 in.
- Voltage Rating (V AC): 125/250

8953200 **39.99**

RELIANCE

15A Single Circuit Transfer Switch



- Designed for plugging in a 15A extension cord to run a furnace blower in the event of a power failure.
- The attached 18 in. flexible aluminum conduit is pre-wired and allows the transfer switch to be connected at the circuit breaker panel or the furnace or at any point in between.

8953283 **179.99**

RELIANCE

50A 10-Circuit Transfer Switch

- Installs easily to provide efficient distribution of electrical power throughout your home.
- Enables the electrical system of the building to accept the power of a portable generator to run up to 10 single-pole circuits or 8 single-pole circuits and one 30A 2-pole circuit.
- It allows you to power electrical appliances, devices and lighting during a power outage.
- Pre-wired design to install quickly.
- Voltage Rating (V AC): 125/250
- Current Rating (A): Two 30 and eight 20

INTRADIN HydroWORKS

Reliable, High Performance
Hydraulic Products

12V DC Linear actuators, 270 lb load capacity
- Stroke length: 2"~12"
- Retracted length: 6.14"~16.73"

12V DC Linear actuators, 900 lb load capacity
- Stroke length: 4"~24"
- Retracted length: 13.82"~33.88"

12V DC Linear actuators, 2,000 lb load capacity
- Stroke length: 4"~36"
- Retracted length: 12.28"~47.80"

Aluminum Worm Gear Speed Reducer
- Compact, light-weight aluminum housing resists rust and corrosion
- High torque output, compact size and low noise
- Ideal for applications requiring a reduced output speed, increased torque or change in drive direction
- Max. Input Shaft Speed (RPM): 1,800

Gear Ratio
100:1 & 60:1

Gear Ratio
60:1 C-face mounting

Worm Gear Speed Reducer
- Precision cast iron housing and bronze gear construction provides strength and durability
- Compact size with changeable input shaft position (L or R) for easy mounting
- Stable power transmission with reduced vibration and noise
- Used as part of the drive unit for conveyors, saw mills, winch drives, elevators, etc.
- Max. Input Shaft Speed (RPM): 1,800

Gear Ratio
10:1 & 30:1 & 60:1

Intradin (Shanghai) Machinery Co.,Ltd.

HydroWORKS

A) Aluminum Horizontal Shaft Worm Gear Speed Reducers
- Hardened and ground integral worm gear and shaft with a high tensile strength bronze ring gear.
- Ideal for conveyors, packaging machinery, construction equipment, food processors and mixing equipment.
- Input shaft can be changed to either side.
- Max. Input Shaft Speed (RPM): 1,800

B) Horizontal-Shaft Worm Gear Speed Reducers
- Made with a high tensile strength cast-bronze ring gear and a hardened, ground alloy-steel worm gear.
- Can be belt, pulley, chain or direct driven.
- Input shaft can be changed to either side.
- Output Shaft Diameter (in.): 1
- Max. Input Shaft Speed (RPM): 1,800

C) C-Face Worm Gear Speed Reducers
- A C-face electric motor up to 3/4 HP can be directly mounted onto this speed reducer, eliminating the need for couplers, belts or pulleys.
- Compact, lightweight all aluminum design resists rust and corrosion.
- Hardened and ground integral worm gear and shaft with a high tensile strength bronze ring gear.
- Double-lip oil seals guard against oil leakage and prevent dirt ingression.
- Smooth operation with low noise and vibration.
- Ideal for conveyors, packaging machinery, construction equipment, food processors and mixing equipment.

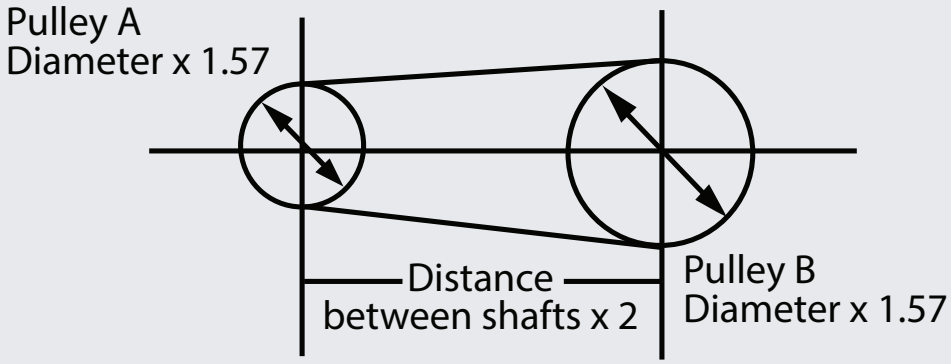
TECH TIP



To Determine O.D. Belt Length:

$$\left(\text{O.D. of small pulley} + \text{O.D. of large pulley}\right) \times 1.57 + \text{2 x distance between shaft centres} = \text{O.D. belt length}$$

*Subtract 2 in. if A belt and 3 in. if B belt.

HERO

Aramid Cord V-Belts

- Universal, classic profile is suitable for a wide variety of industrial applications.
- Anti-static, heat and oil resistant with aramid cords for high tensile strength and low elongation.
- Standards: Meet or exceed ISO, JIS, BS, SAE, KS and RMA standards.
- V-belt sizes: Measured as follows: A section: 1/2 in. top width; B section: 21/32 to 5/8 in. top width.
- Measurement: To determine size, measure the outside circumference of the belt and subtract 2 in. if A belt and 3 in. if B belt.

TECH TIP

Gas storage

Only store gas in clean containers with tight caps. Keep the container nearly full to reduce exposure to air. Store gasoline in a cool place to reduce evaporation and oxidation.

TECH TIP

Horse Grooming

Use a curry comb to remove dirt and dead hair. After currying, brush and towel for a healthy coat. Don't use too much shampoo, as it's hard to rinse out and can cause itchy skin.

McKENZIE Seed Starting with Jiffy

36 pk Peat Pellet Refills

9508656 ..... 6.99

TECH TIP

Peat

Able to hold up to 20 times its weight in water, while retaining soil nutrients, peat is an excellent medium for growing plants. It also improves soil structure and reduces compaction, which ensures airflow to roots, while improving drainage.

	3/8	Up to 45	6,600	8931321	9.49*

*Available in-store only.

TECH TIP

Check the Working Load Limit (WLL): This is the maximum safe load the chain is designed to carry during normal operations. Typically a fraction (with a built-in safety factor) of the chain's breaking strength. Always ensure the chain's WLL is sufficient to support the load, plus any additional forces from angles or movement.

TECH TIP

Wondering how much effort it will take to lift a load?
Divide the weight of the load by the number of pulleys in your hoist. For example: To lift a 1,000 lb load using a hoist containing 7 pulleys, you would have to exert enough effort to move 142.9 lb.

TECH TIP

Power Down Before Getting to Work

The most important safety tip for installing new electrical receptacles is to always turn off the power at the circuit breaker and verify it is off using a non-contact voltage tester before touching any wires.

TECH TIP

Window Screen Replacement

Replacing a window screen is easy if you follow these 4 simple steps:

1. Remove the old window screen by prying the spline out with a screwdriver.
2. Place the new screen over the frame and cut it to length, leaving a bit of overlap on all sides.
3. Use a screwdriver or spline roller to press the spline into the groove of the frame.
4. Cut off any excess screen with a utility knife to finish the job.

The industry standard for measuring axles is Hub Face to Hub Face.

Proper axle placement will ensure a trailer is neither tongue heavy, nor rear heavy. Trailer weight will be properly placed on the axle of the trailer instead of the tow vehicle.

Starting from the front of the trailer cargo area, the centre of the axle should be at 60% of the cargo deck's length not including the trailer tongue. For tandem axles this should be the centre of the two axles.

Bolt Circle Template

- Takes out the guesswork and shows you the exact pattern for any wheel assembly.
- Material: Plastic

Torsion Axle Ends

- Bolt Pattern: 5 on 4-1/2
- Start Angle: 22.5°
- Bolt directly onto the trailer and eliminate the need for a full-length axle.
- Provide an independent suspension, which absorbs road shock for a smoother, quieter ride.

TECH TIP

SAFETY STARTS AT THE HITCH:

When selecting a trailer jack, first determine your trailer tongue weight. The weight capacity of your jack should be at least 75% of your trailer's Gross Vehicle Weight (GVW), but more accurately matches your actual tongue weight, which is typically 10-15% of the total loaded trailer weight.

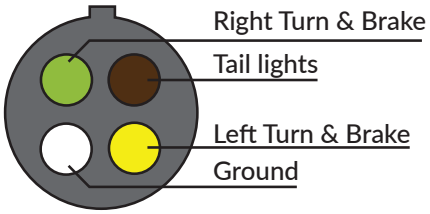
TRAILER

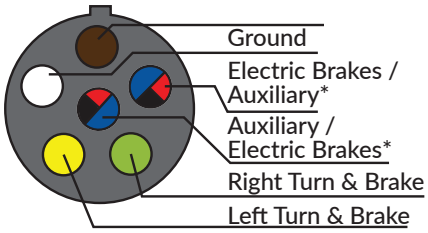
TRAILER/VEHICLE WIRING GUIDE

*Brake and Auxiliary Power have two different industry standards. Identify which way your trailer is wired before wiring connectors.

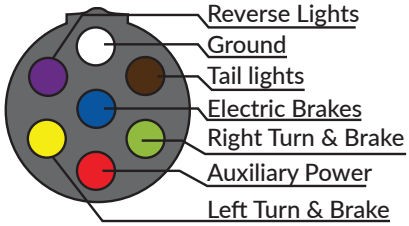
4 Round



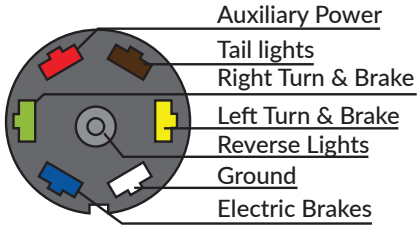
6 Round



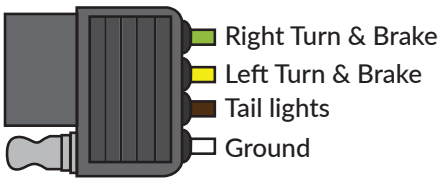
7 Round



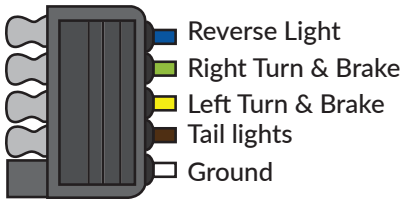
7 Blade



4 Flat



5 Flat



IMPORTANT Identify the wires on your vehicle by function only. Illustrations represent the rear views of the connectors.

Trailer Connectors with LED Test Lights

- Built-in, red LED lights offer easy troubleshooting.
- They illuminate to verify there is power from the tow vehicle.
- Strong and durable ABS plastic construction.
- Corrosion-resistant terminals withstand the elements.

TECH TIP

Crimping Tip #1 Prep the Wires

Before crimping a wire, you must first select the correct wire gauge and strip a specific length of insulation from the wire. Both the insulation and wire must be cut perpendicular to the wire's longitudinal axis.

Crimping Tip #2 Skip the Pliers

Pliers are not crimpers. Crimpers are specially designed to deform the wire and insulation in certain locations with the proper force and join the wire and terminal together.

Crimping Tip #3 Avoid Over-Crimping

Over-crimping could cause excessive extrusions or flares on the bottom of the conductor crimp. It also reduces the circular area of the conductor and increases resistance.

Crimping Tip #4 Inspect and Test

Visually inspecting the crimped wire can usually help detect most defects. Defects to look for include pierced insulation, if the wire is loose or pulls out of the connector easily and if bare wire is showing past the end of the connector.

Crimping Tip #5 Stop Electrical Connector Corrosion

Pack the terminals and plugs of your trailer connections with dielectric grease. This keeps moisture and corrosion at bay and helps with plug-in and removal.

Crimping Tip # 6 Heat Shrink Terminals

Heat-shrink terminals range in size, gauge, and style allowing for quick crimp replacement of broken or corroded terminals. The sealing action of the heat-shrink when heated with a torch, heat gun, or lighter helps keep dirt and moisture out of the connection.

TECH TIP

Trailer Wiring

At some point, you might need to upgrade your trailer wiring. If the wiring runs inside the frame, try attaching the new wiring to one end of the old wiring. It will run through the frame as you pull out the old, and make the whole job much easier.
Rubber grommets or liquid electrical tape are ideal ways to plug any holes where wire goes through the frame.

TECH TIP

TRACING AUTOMOTIVE WIRES

Struggling to track down a bad wire in your vehicle or trailer wiring?
Try the Auto Circuit Tracer Detector (8415002) or the Multi-Purpose Wire Tracer (8347684).

They identify breaks or open shorts in wiring without poking holes in your wiring insulation, very handy in vehicles with long runs of wiring that is tricky to access like boats and RVs.

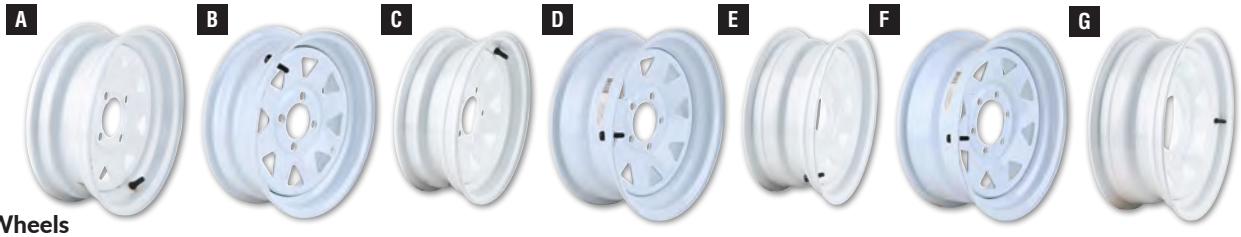
TECH TIP

SHUT OUT THE SUN WITH TIRE COVERS

Tire covers keep your investment safe from the sun's harmful UV rays and keep them clean and ready for the next installation.

Left exposed to the elements, utility trailer, boat trailer and RV tires can dry out causing cracks in the rubber. This could be dangerous and take seasons of use off your tire's life



Trailer Tire Wheels

TECH TIP

Keeping your trailer hitch ball and coupler lubricated makes it easier to hook-up or disconnect, and keeps the connection moving smoothly while maneuvering.

Keep a can of RV Trailer Hitch Lube (8985368) or White Lithium Grease (8003464) in your truck, boat or RV for miles of easy towing!

BUY SMART. PULL RIGHT.
PULLING POWER COMES FIRST
Don't shortchange your strength. A winch should pack 1.5 to 2 times your vehicle's GVW — gear and all.
MORE TO FACTOR IN:
• Cable or Rope
• Duty Cycle
• Always pull — never lift
• Power Loss
• Motor Type

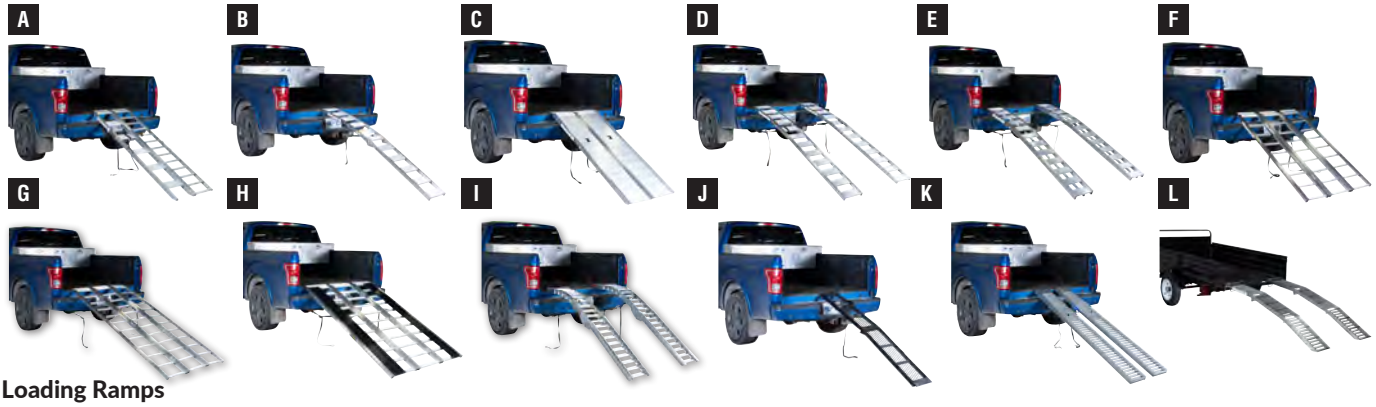
LOADING RAMPS

PROPER RAMP
INSTALLATION & USE
ALWAYS remove your tailgate before using ramps.
NEVER ride or drive equipment while loading or unloading – USE a winch or push the load with a buddy.
ANCHOR the ramps with straps, chains or cables to your vehicle to prevent slipping and shifting.



Loading Ramps

Shedding some light on lumens and beam patterns: GET THE BEST LIGHTS FOR YOUR RIDE!

CLICK THE QR CODE to learn more and see our selection!

- Make sure to check effective lumens to determine how the light will perform in real-world conditions.
- When comparing spot, flood and driving lights, make sure to check with local laws before using them on the road. Driving lights will typically be road legal, while spot and flood lights are designed for off-road applications.

TECH TIP

Protect Your Lighting Connections with Dielectric Grease

Moisture and corrosion are common culprits behind dim or nonoperative lights. A simple solution? Apply dielectric grease to bulbs, bulb sockets, and wiring connections.
This non-conductive grease creates a protective barrier that:
- Prevents moisture infiltration
- Stops corrosion before it starts
- Keeps your lighting bright and reliable

A quick application during installation or during seasonal maintenance and say goodbye to trailer light troubles.

TECH TIP

Straps

Every piece of webbing, buckle, ratchet and end hardware has its own number associated with the Working Load Limit (WLL) and Break Strength.

Working Load Limit (WLL) refers to the maximum allowed weight. A winch strap rated at 5,000 lb shouldn't be used to secure any load above that weight. Working Load Limit is always 1/3 of the breaking strength (e.g., a strap with a breaking strength of 15,000 lb will have a Working Load Limit of 5,000 lb).

Break strength is determined by the WEAKEST POINT of the strap (webbing, end fittings or tensioning device). For example, if a ratchet strap assembly comes with end fittings, webbing, and a ratchet and shows a 10,000 lb break strength, then the overall break strength of the entire product will stay 10,000 lb. However, if the same strap was made with a ratchet that had an 8,000 lb break strength, this reduces the overall product strength to 8,000 lb, even though the webbing is rated for 10,000 lb.

It's extremely important to understand the differences whenever you are securing a load. A strap failure could result in a costly or dangerous situation. These limits are usually printed or tagged on each strap; be sure to reference them before use.

POWERFIST

Universal Lift Supports

- Use on vehicle hoods, rear hatches, storage compartments, truck gull-wing boxes, farm tractor doors, ventilation panels, storage bins and much more.
- A smooth, defined closing speed and excellent damping properties make opening and closing heavy lids and doors a breeze. It features a compact design, small space requirement and is easy to install.

TECH TIP

TRAILER BRAKE CONTROLLERS

If you tow a trailer, a trailer brake controller is one of the best upgrades you can make. Commonly, these are required for trailers with an axle rated 3,500 lb or over. Check your local laws and regulations. These devices working in conjunction with brakes mounted on your axle(s) help protect your vehicle by sharing the braking work, reducing heat and wear on your tow vehicle's brakes. Whether you choose proportional or timer based, a brake controller boosts towing safety. Proportional controllers match your braking force for smooth, natural stops, while timer based controllers deliver braking power on a preset ramp. Both improve stability and control when hauling heavier loads.When you're towing a camper, boat, or equipment, a brake controller makes your setup safer, smoother, and easier to handle.
Stop smarter, tow safely!

TECH TIP

Garden Hose Nozzles

A garden hose spray nozzle can be pistol-shaped, round or cylindrical. Nozzles are made of plastic or brass, or they can be constructed of aluminum or can be made up of multiple materials. The shape and construction material you choose for your nozzle depends on your taste and on how often you use it and where.

POWERFIST

8 in. Air Ventilator with 25 ft Ducting Hose

- Airflow (CFM): 960
- Voltage Rating (V AC): 115
- Current Rating (A): 2.1
- Number of Speeds: 1
- Cord Length (ft): 10

9272139 ..... **369.99**

TECH TIP

The Benefits of Air Ventilators

Great for water damage restoration, janitorial work, painting projects, etc.

For best results, position at a 45° angle toward walls or flooring to create a circular airflow pattern. This maximizes coverage and speeds up drying.

F	9.46 litre	**6480123**	**41.99***

*Available in-store only †Subject to seasonal availability.

TECH TIP

Keep Your Kerosene Heater Safe and Efficient

High-Quality Fuels – Fuel oils are updated to match the most recent temperatures, with additives blended in for specific temperature ranges.

Ventilating the Area – Kerosene heaters produce fumes—always operate in a well-ventilated space.

Inspect for Leaks and Damage – Check the fuel tank and rubber supply hoses for leaks.

Store Fuel Safely – Keep kerosene in a clean, sealed container away from heat sources.

End-of-Season Maintenance – Before storing, empty the fuel tank and clean the heater thoroughly. Wrapping it in a garbage bag will keep dust and insects out during storage.

HEATSTAR

6,000 to 18,000 BTU Radiant Propane Cabinet Heater

- Heats patios, decks and other outdoor spaces.
- Features tip-over and overheat shut-offs and thermoelectric safety valve.
- Heating Area (sq. ft): 450
- Ignition Type: Piezo spark

HEATSTAR

If your home already has a natural gas line, a natural gas unit heater is a great way to stay comfortable while working in the garage during those cold Canadian winters. These units are clean-burning, efficient, ready-to-use, and come with a thermostat. A few things to keep in mind before you can get started:

- Check local building gas codes for possible localized compliance.
- The installation should be conducted by a certified tradesperson.
- Vent kits may require additional components depending on the installation location.
- Protect yourself with a carbon monoxide detector within the area.

Includes electronic ignition, convenient-wall-mounted thermostat and mounting bracket and conversion kit.

Gorilla Poly Tarps

- Aluminum grommets every 1-1/2 ft.
- UV-resistant coating.
- Polyethylene layers that are folded on each other with 2 rows of reinforced stitching for long-lasting use.
- D-ring corners can be used with many hook styles.
- Tightly woven, high-weave-count design that's heavier than standard tarps, offering added strength and sturdiness.
- Mesh Size (in.): 12 x 12

TECH TIP

Canadian Boating Safety Quick-Check:

- PCOC and Vessel License: Carry your Pleasure Craft Operator Card. A Pleasure Craft license & displayed registration number is required in Canada for vessels with engines rated 10 HP or more.
- Safety Gear: Have approved life jackets or PFDs for everyone onboard. Fire extinguisher, 50 ft of yellow rope with float, bailer, mirror, water-resistant flashlight (check its function before leaving shore), and sound signal device such as a pea-less whistle.
- Weather Check: Know conditions before you launch. Take note of any obvious changes/increases to wind speed and other notable conditions.
- Stay Sober and Plan Ahead: Just like driving a vehicle, alcohol consumption and boating are a criminal offence.

Smith's

6 in. Tri-Hone Sharpening System

- Sharpens pocket, hunting, fishing or kitchen knives and other cutting tools.
- Coarse- and fine-grit diamond stones with a unique, overlapping hole design that speeds sharpening by collecting and holding the metal filings.
- Natural Arkansas stone removes moderate amounts of metal as it polishes the cutting edge.
- Micro-tool sharpening pad for small tools.
- Angle guide, non-slip rubber feet and includes honing solution.
- Stone Size (in.): 6 x 1-5/8
- Grit: 400 (coarse), 600 (medium) and 1,000 to 1,200 (fine)
- Abrasive Material: Synthetic stone and natural Arkansas stone
- Sharpens: Standard-edge knives, tools and broadheads

8878977 **69.99**

120V Compact Knife Sharpener

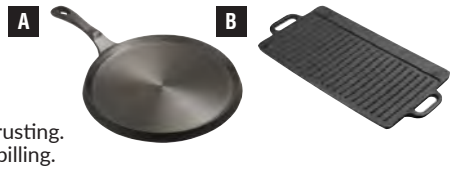
TECH TIP

Cleaner burning in your camp stove

The "Top-Down" Method: Instead of lighting from the bottom, place large logs at the base, medium logs in the middle, and kindling on top. Lighting from the top creates a cleaner burn with less smoke and rapidly reaches high temperatures.



GOURMET TOOLS UTENSILS

TECH TIP

Cast iron care

Seasoning your cookware is easy. Rinse with hot water and dry completely, rub with a thin coat of oil, bake at 450°F for 1 hour. The best oils for seasoning cast iron are those with a high smoke point and that polymerize well (form a hard, non-stick layer when heated). Common choices include Flaxseed, Canola, Vegetable, Grapeseed and Avocado oils.
To clean, use hot water + stiff brush (skip soap). Use salt to remove the tough bits. Dry and oil after every wash—rust never sleeps.

GOURMET TOOLS UTENSILS

TECH TIP

Keep Your Gear Trail-Ready

The great outdoors may not seem so great when you have a leaky tent or a wet sock from a damaged boot. Repair tape and adhesives not only have their place in the shop, but in your camping kit as well. You think it will never happen to you, but one wrong step might have you needing to repair the sole of your boot, tear in your jacket or tent. Likely to tear further if left alone. Add some repair tape and adhesive to your pack list, you'll be glad you did!

Tenacious Tape Hex Repair Patches

- Peak Horsepower (HP): 2
- Hose Length (ft): 4
- Cord Length (ft): 8
- Includes: Flexible aluminum hose, metal nozzle, filter cage, metal filter cage and crevice tool

8686289 **119.99**

TECH TIP

Shop Vac vs. Dust Collector ... What's the difference?

The key technical difference is that a shop vac provides high static pressure (suction) through a narrow hose for spot cleanup, while a dust collector provides high airflow through a wide hose to capture large volumes of fine dust from stationary machines at the source. They are designed for different purposes and excel in those specific applications.

TECH TIP

SOLAR MOTION LIGHTS...a Bright Idea

Solar motion lights are a quick, no-wiring way to boost outdoor security. They charge during the day and pop on instantly when they sense movement. For the brightest results, place them where they get full sun and avoid shaded spots.

TECH TIP

High-Vis Clothing

When selecting high-vis clothing, consider the environment you will be working in.

Does the colour stand out against the work environment?
Can the clothing handle the weather or temperature extremes?
Can it protect against the work area hazards?

SHOP & GARAGE

FALL PROTECTION

Safety Harnesses

Arrest falls while evenly distributing shock to prevent injury.

PRO-POINT

Breaker Bars

- Don't let a frozen bolt or stuck nut slow you down or wreck your ratchet. Bust it loose with a breaker bar. The F-style square breaker bars have replacement heads available.
- Drive Type: Yoke-style square

MEGAPRO EVERY BIT BETTER

15-in-1 Multi-Bit ShaftLok Screwdriver

- The locking shaft holds the bits in place so they won't fall out.
- The retractable bit cartridge makes it easy to find, change and store the bits.
- The Palm Saver Cap won't turn as you push on the cap and turn the handle.
- The EZ Guide collar helps the bit stay in contact with the screw for greater control.
- Includes: Phillips: 0, 1, 2, 3; Square: 0, 1, 2, 3; Slotted: 4, 6; Torx: 10, 15, 20, 25

9118035 **49.99**

MEGAPRO EVERY BIT BETTER

10 in. Extension for Multi-Bit ShaftLok Screwdriver 9118035

- Features a locking shaft that holds the bits in place so they won't fall out.
- This slim profile extension is made to be an exact duplicate of the ShaftLok driver shaft, so it locks into the ShaftLok of multi-bit screwdriver 9118035 with ease.
- Combine multiple extensions together to achieve the desired length you need.

9118043 **26.99**

MEGAPRO EVERY BIT BETTER

6 in. Aluminum Extension

For use with all bit drivers.

TECH TIP

Riveters

Rivets are great for fastening two workpieces together when a screw or a nut and bolt will not do.
Select the right nose piece for the job. The rivet should fit snugly in the nose piece without any effort to insert or remove it.
Swapping out a nose piece is easy. Close the handles and remove the nose piece with a spanner. Insert the new nose piece in the same way. Open the handles, insert the rivet stem all the way and you're ready to get the job done.

TECH TIP

KDS BLADES - CHOOSING THE RIGHT ONE FOR THE TASK

KDS Blades are manufactured in Japan and engineered in various blade heights and thicknesses to suit a variety of jobs. They utilize a letter designation to help you choose the right blade for your application:

- "S" Series: 9 mm tall blade, 0.38 mm thick. These have a 30-degree blade angle for delicate, precise cutting tasks. The slim profile makes them the go-to choice for intricate craft work and vinyl trimming.
- "L" Series: 18 mm tall blade, 0.50 mm thick. These blades offer a double-honed edge on high-tempered steel. They serve as the perfect all-purpose standard for daily warehouse and construction needs.
- "G" Series: 18 mm tall blade, 0.60 mm thick. This is 20% thicker than the "L" series blades for tough cutting jobs. The added rigidity prevents the blade from bowing when slicing through dense materials like thick rubber.
- "H" Series: 25 mm tall blade, 0.70 mm thick, 40% thicker than the "G" series for heavy-duty cutting jobs like plasterboard. This massive blade provides maximum leverage and durability for the most demanding demolition tasks.

5-1/2	10	8787061	14.99

SAFETY TIP

Basic Hand File Use

Using a hand file incorrectly can be harmful to the file. The correct method is to push the file forward to make a cut then, at that point, lift the file off the workpiece and repeat until the desired effect has been made. "Sawing" the file back and forth will damage the teeth of the file, causing permanent damage.

TECH TIP

Need to clamp something but... Which One Is Right for Your Work?

When you need to hold materials together securely, the choice between pipe clamps, bar clamps, and c-clamps can make a big difference in both ease of use and the quality of your finished work. Each clamp style is built for a specific type of task, and understanding their strengths can help you work safer, faster, and more effectively.

Pipe clamps are the most versatile option, as they rely on standard lengths of threaded pipe, which means you can create a clamp as long as the job requires simply by using a longer pipe. This makes pipe clamps ideal for large glue-ups such as tabletops, door frames, or wide panels. Because their pressure distribution is strong and their length is fully customizable, they're one of the most practical options in woodworking and fabrication.

Bar clamps are designed for precision and stability when you need a fixed-length clamp that stays square under load. Unlike pipe clamps, bar clamps maintain consistent alignment across the entire jaw width and don't roll or twist easily. This makes them excellent for cabinetry, fine woodworking, and assembly tasks where accuracy matters more than raw clamping force.

C-Clamps, (sometimes called G-clamps) are the most compact and rugged of the three. They deliver significant clamping pressure in a very small footprint, which makes them perfect for metalworking, welding, machining, etc. Their simple, heavy-duty design makes them reliable for securing materials that need to remain completely stationary. However, because of their smaller reach and throat depth, they are not ideal for wide or large assemblies.

Choosing the right clamp depends on the material, the scale of your project, and how much precision you require.

With the right clamp in hand, every project runs more smoothly, joints fit up the way they're supposed to, and the final result meets the standard you expect. It's simply about using the right tool for the job—saving time, reducing errors, and maximizing your workflow.

Eliminate unnecessary adjustments, hold materials exactly where you need them, and move through each stage of the build with fewer interruptions. In the end, it's a small choice that makes your entire process more controlled, consistent, and predictable

POWERFIST

Spring Clamps

TECH TIP

DOUBLE-JOINT PLIERS

Double-joint pliers are ideal for accessing recessed clips and fasteners in tight or narrow areas. They pull, twist and grip similar to standard long-nose pliers, but they have increased reach. The articulation of the joints lets the jaws open wide while the spread of the handles is kept to a minimum.
Stock up your toolbox today. You'll be glad you did!

TECH TIP

ACOUSTICAL SEALANT

Unlike standard caulk, acoustic sealant remains permanently flexible to block sound leaks through gaps in drywall, outlets, and wall perimeters. It's the essential final step to ensure noise doesn't "leak" through your insulation efforts. This is a perfect product to seal vapour barriers to wall studs.

POWERFIST

HAND TOOLS

TECH TIP

TRACING AUTOMOTIVE WIRES

Struggling to track down a bad wire in your vehicle? Try an Auto Circuit Tracer Detector.
These are designed for DC systems up to 42V. They identify breaks or open shorts in wiring without poking holes in your wiring insulation, very handy in vehicles with long runs of wiring that is tricky to access like boats and RVs.
Instead of tearing apart the entire dashboard or unspooling yards of electrical tape, you simply connect the transmitter to the circuit in question. The handheld receiver then picks up the signal through the insulation. When the signal disappears or changes tone, you've found your culprit. It's a massive time-saver for diagnosing parasitic draws or intermittent lighting failures where the wire is hidden deep within a chassis or behind interior panels.

This non-contact method preserves the integrity of your harness, preventing future corrosion caused by traditional "probe and poke" testing. Whether you are chasing a dead tail light on a 30-foot trailer or a finicky sensor in a modern engine bay, these tools turn a four-hour headache into a five-minute fix.

KLEIN TOOLS

NEW!

Premium Electrical Test Kit
- Voltage Range (V DC): 600
- Voltage Range (V AC): 1,000
- Resistance Range (ohm): 2,000
- Includes: Digital multimeter, voltage tester with flashlight, receptacle tester, batteries

9322397 **89.99**

Thermal Imaging Camera
- Selectable alarms from -20 to 400°C.
- Field of View (°): 50
- Battery Type: Lithium-ion
- Includes: Micro-USB charging cable and carrying case

9431610 **469.99**

400A Digital Clamp Meter
- Tests AC voltage, current, resistance and more.
- Voltage Range (V AC): 600
- Resistance Range (ohm): 2,000,000
- Includes: Carrying case, test leads and battery

9431487 **89.99**

Carbon Monoxide Alarm
- Measuring Range: 0 to 1,000 ppm
- Includes: (4) AAA batteries and carrying pouch

9431529 **149.99**

Pinless Moisture Meter
- Non-invasive detection.
- Max. Sensing Depth (in.): 3/4
- For use with: Drywall, masonry, hardwood and softwood

9431537 **74.99**

Infrared Thermometer with Tester
- Auto off.
- Temperature Range (°C): -20 to 400

9431545 **64.99**

Combustible Gas Leak Detector
- Measuring Range: 50 to 10,000 ppm
- Includes: Batteries and carrying pouch

9322322 **149.99**

Digital Circuit Breaker with GFCI Tester
- Max. distance: 1,000 ft.
- Voltage Rating (V AC): 120

9322389 **84.99**

Non-Contact and GFCI Tester Kit
- Readout of voltage/wiring faults.
- Voltage Rating (V AC): 50 to 1,000 (NCVT1P), 110 to 125 (RT205)
- Includes: (2) AAA batteries

9431578 **49.99**

70 to 1,000V Non-Contact Tester
LED/audible indicators alert if voltage is present.

9431586 **32.99**

Scratch Awl with Grip
Tempered-steel shank. Reinforcing bolster at handle.

9431800 **29.99**

GFCI Tester with LCD
- LCD readout of voltage/wiring faults.
- LED indicators.
- Voltage Rating (V AC): 135

9431594 **39.99**

Conduit Benders
For 10, 22.5, 30, 45 and 60° bends.

Pipe/Tube O.D. (in.)	Deatils	ITEM	PRICE
3/4	For 3/4 in. EMT and 1/2 in. rigid/IMC.	9431719	67.99
1/2	For 1/2 in. EMT.	9431701	62.99

8-20 AWG Heavy-Duty Kurve Stripper
- For solid or stranded wire.
- Steel blade.
- Capacity (AWG): 8 to 18, 10 to 20

9431552 **59.99**

Utility Skinning Cable Knife
- Blade Material: 440A stainless steel
- Blade Length (in.): 2-1/2

9431693 **36.99**

Knockout Punch Set with Wrench
- Knockout Punch Size: 1/2, 3/4, 1, 1-1/4, 1-1/2 and 2 in.
- Knockout Die Size: 1/2, 3/4, 1, 1-1/4, 1-1/2 and 2 in.
- Cutting Capacity: 10-gauge mild steel, aluminum, fibreglass and plastic
- Includes: (6) knockout punches and dies, (2) draw studs, ratcheting box end wrench

9431727 **399.99**

VEHICLE LIFTS

TORIN

A) 9,000 lb 2-Post Vehicle Lift

- Provides ample door-opening clearance for entry to vehicles.
- Manual single-point lock release system uses minimal effort to disengage the carriage locks.
- Front arms articulate a full 110°, allowing the lift the greatest range of pickup points.
- Reliable electric/hydraulic system.
- Powder-coated steel construction.
- Min. Lift Height (in.): 4-3/8
- Max. Lift Height (in.): 73-5/8
- Voltage Rating (V AC): 220
- Lifting Time (seconds): 50
- Front Arm Min. Reach (in.): 29.2
- Front Arm Max. Reach (in.): 45.3
- Overall Dimensions (in.): 135.8L x 112.9W x 111.2H
- Available in-store only

8964876 **3999.99**

C) 9,000 lb 4-Post Vehicle Lift, Special Order Only

- Lift features 18 locking positions.
- Runways feature 2 adjustable settings.
- Reliable electric/hydraulic system.
- Powder-coated steel construction.
- Min. Lift Height (in.): 5-1/2
- Max. Lift Height (in.): 87-13/16
- Voltage Rating (V AC): 208-240
- Lifting Time (seconds): 70
- Overall Dimensions (in.): 238-9/16L x 131-11/16W x 105H
- Available in-store only

8964850 **5499.99**

B) 10,000 lb 2-Post Asymmetric Vehicle Lift

- Provides ample door-opening clearance for entry to vehicles.
- Manual single-point lock release system uses minimal effort to disengage the carriage locks.
- Front arms articulate a full 180°, allowing the lift the greatest range of pickup points.
- Reliable electric/hydraulic system.
- Powder-coated steel construction.
- Min. Lift Height (in.): 4-5/16
- Max. Lift Height (in.): 75-1/4
- Voltage Rating (V AC): 208/240
- Lifting Time (seconds): 60
- Front Arm Min. Reach (in.): 26-7/8
- Front Arm Max. Reach (in.): 47-5/8
- Overall Dimensions (in.): 146-1/8L x 119-5/16W x 143-3/4H
- Available in-store only

8964884 **4799.99**

D) 13,000 lb 2-Post Vehicle Lift, Special Order Only

- Equal-length, adjustable lift arms.
- Reliable electric/hydraulic system.
- Powder-coated steel construction.
- Min. Lift Height (in.): 3.9
- Max. Lift Height (in.): 76
- Voltage Rating (V AC): 220

TECH TIP

Disc Brakes

Disc brakes dissipate heat more effectively than drum brakes, making them much more resistant to brake fading under active usage and steep declines. Disc brakes are also easier to install and maintain than drum brakes.

TECH TIP

Rust Proofing

Canadian winters are harsh, and the salts and chemicals that are spread on the highways can wreak havoc on your vehicles body, frame and electrical components. Consider using a fluid rust-preventative coating. Highly concentrated, under pressure it sprays a mist that bonds to metal and dispels moisture. It also acts as an insulator that arrests corrosion between similar metals.

With unique penetrating ability that allows it to reach hairline cracks, welded seams and crevices to form a protective barrier against rust, these sprays help vehicles retain their value, safety and appearance throughout all conditions.

Safeguard your vehicles structural integrity and appearance while protecting your investment today!

Fluid Film

- Derived from wool wax. Provides protection against further rust.
- Long-lasting. Will not dry out or evaporate. Solvent-free.

POWER YOUR SPORT

Those who work hard and play harder need a powersport battery that delivers performance and reliability at an affordable price.

Whether you're hitting the trails on your snowmobile, motorcycle or ATV, or the lake on your personal watercraft, the last thing you want to worry about is your battery.

We've got you covered with a wide range of conventional, sealed maintenance-free and AGM powersport batteries to keep your toys in top running condition.

TECH TIP

Sometimes batteries see intermittent use, like Lawn and Garden or Marine/RV batteries. Keeping a charger/maintainer connected when not in use will help ensure they are ready to go at the turn of key!

Click here to check out our selection of battery chargers and maintainers from brands like Powerfist, Energizer, NOCO, Schumacher and Dewalt!

PS100 SKU 9525171
ELECTRICAL COMPONENT CURRENT, VOLTAGE, AND RESISTANCE TESTER
- Verify voltage at battery, alternator & sensors
- Parasitic Drain Detection
- Charging System Performance check
- Built-in Headlights & 20-foot Cable

1-SENSOR SKU 8863243
UNIVERSAL PROGRAMMABLE TPMS SENSOR
- Combined Frequency: 315MHz & 433MHz
- Press Release Button to Replace Valve Stems
- Program to Replace 99% of OE Sensors

TS508WF SKU 9261298
COMPLETE TPMS SERVICE TOOL
- 2 MX-Sensor Programming Options
- Exclusive TPMS System Status Screen
- Read/Relearn All Known Sensors

AUTEL

Autel Code Readers

Compatible with most domestic and imported vehicles, 1996 and newer.

	Type	Display Type	Pixel Resolution (dpi)	Applications	ITEM	PRICE
A	AL301 OBDII/EOBD	Backlit LCD	-	Read/erase DTCs for the engine. Emissions component test reads and displays I/M monitor status. Reads and displays VIN.	8454308	51.99
B	AL329 OBDII/EOBD	Colour LED	220 x 176	Read/erase DTCs for the engine. Emissions component test reads and displays I/M monitor (emissions) status. Reads and displays VIN, CALID and CVN. Prints via PC.	8792095	69.99
C	AL549 OBDII/EOBD	LCD	320 x 240	Read/erase DTCs for the engine and ABS. Emissions component test reads and displays I/M monitor (emissions) status. Reads and displays VIN.	9284639	149.99
D	AL439 OBDII/EOBD	Colour TFT	320 x 240	Read/erase DTCs for the engine. Emissions component test reads and displays I/M monitor (emissions) status. Reads and displays VIN, CALID and CVN. Prints via PC.	8454340	159.99
E	MD909 OBDII/EOBD	LCD	1,280 x 720	Reads/clears DTCs in all systems; supports Mode 6, AutoScan, and 11 service functions (oil, brake, injector, SAS, throttle, EPB, BMS, TPMS, DPF, AFS, A/F). Performs full OBDII and I/M readiness tests.	9525163	579.99
F	AL629 OBDII/EOBD	LCD	320 x 240	Read/erase DTCs for engine, ABS, SRS and transmission. Reads and displays VIN, CALID and CVN. Prints via PC.	8863276	249.99
G	TS508WF Advanced TPMS Service Tool	Colour TFT	320 x 240	Reads, activates, and relearns all known sensors, supports 2 MX-Sensor programming methods, performs placard value resets on compatible vehicles, displays on-tool relearn procedures (including OBDII), and tests key fob signal strength.	9261298	399.99

TITAN

Titan Code Readers

	Type	Applications	ITEM	PRICE
H	OBDII	Detects DTCs. Diagnostic readiness status. Reads VIN. Vehicle monitoring information.	9313784	29.99

J	OBDII	Read/erase DTCs for the engine. Emissions component test reads and displays I/M monitor (emissions) status. Reads and displays VIN. Tests battery voltage and life. Oxygen sensor monitoring.	9313776	49.99
K	OBDII/EOBD	Read/erase DTCs. Emissions component test reads and displays I/M monitor (emissions) status. Reads and displays VIN. Mode 6 and 8 inspection. Tests battery voltage and life. Oxygen sensor monitoring.	9313800	59.99
L	OBDII/EOBD	Read/erase DTCs. Emissions component test reads and displays I/M monitor (emissions) status. Reads and displays VIN. Mode 6 inspection. Tests battery voltage and life. Oxygen sensor monitoring.	9313792	89.99

TITAN

4.3 in. Colour LCD Inspection Camera

- Display Type: TFT-LCD colour with adjustable brightness
- Cable Length: 39 in.
- Includes: Mirror, magnet and single hook attachment

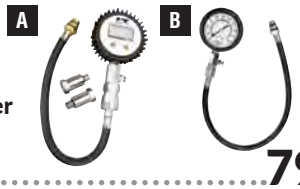
8942997

129.99

PT® Performance Tool

Cordless 4- and 5-Pin Automotive Relay Tester
- Display Type: LED indicator light
- Voltage Rating (V DC): 12
- Includes: 4 AA batteries

9053158 **47.99**



A) Digital Compression Tester
- Size range: 10 to 18 mm.
- Max. 300 PSI.

9155086 **79.99**

B) Flex Drive Compression Tester
- Checks compression from 0 to 300 PSI.
- Fits 14 and 18 mm spark plug ports.

9154949 **38.99**

Diesel Compression Tester Kit
- For testing compression at injector and glow plug ports on most diesel trucks, cars and tractors
- Swivel end coupler allows quick and easy change-out of adapters.
- 0 to 1,000 PSI/ 0 to 70 bar gauge with release valve and 14-1/2 in. hose.
- Handy fitted blow-moulded storage case.
- Includes adapters for most diesel engines, including farm equipment.

9154790 **229.99**

Leak Down Test Kit
- Diagnoses internal engine problems, such as bad rings, valves and leaking head gaskets.
- Dual 2-1/2 in. gauges with metal bezels and protective, rugged outer boots.
- For use with: Automotive engines
- Includes: Manifold with 2 gauges, 60 cm hose and 4 threaded adapters (M10, M12, M14 and M18)

9154816 **84.99**

Vacuum and Fuel Pump Tester
- Use for diagnosing fuel pump suction or pressure, testing carburetor settings, checking for stuck or burnt valves, and adjusting valve timing.
- Features an easy-to-read 2-5/8 in. gauge with both SAE and metric calibration, 0 to 10 PSI fuel pressure scale, 0 to 30 in.-Hg/0 to 700 mm-Hg vacuum scale, flexible hose and tapered fitting.
- Used to diagnose vacuum leaks, weak valve springs or burnt valves and measure low pressure fuel pump output up to 10 PSI, this is a handy addition to your vehicle diagnostic tool set.

9154899 **32.99**

18 pc Wind-Back Brake Calipers
- Overall Length (in.): 12
- Material: Steel
- Includes: 15 adapters, 2 threaded piston calipers and 1 spreader

9121211 **79.99**

Brake Fluid and Tire Pressure Tester
- Quickly determines the percentage of moisture in brake fluid and also tire pressure.
- Features LED indicator lights.
- Material: Plastic

9121351 **31.99**

NEW!

Radiator Fin Straightener

9438359 **9.99**

2.4 in. Colour LCD Inspection Camera
- Great for inspecting engine compartment, valves, A/C vents, plumbing pipes, under or around furniture and appliances, cable routing, pest control and more.
- 2.4 in. colour LCD monitor with 320 x 240 VGA resolution displays real-time playback of hard-to-reach, inaccessible or out-of-view areas.
- Extra-long submersible 5/16 in. (8 mm) diameter camera features 79 in. (200 cm) flexible neck and 640 x 480 resolution
- Camera specifications: 8 mm O.D., LED variability of high/medium/low/off, waterproof camera assembly with IP67 rating, frame rate of 30 FPS, view angle (FOV) of 65° and 3 to 8 cm depth of field.
- 4-hour charge time
- Cable Length: 6-1/2 ft
- Includes: Mirror, hook clip, magnet and charging cable

9155011 **89.99**

Deluxe Antifreeze Tester
- For testing all permanent ethylene glycol solutions in hot or cold radiators to determine the freezing or boiling point.
- Fast and accurate with easy-to-read Celsius/Fahrenheit scales.

9155029 **9.99**

Automotive Stethoscope
Use to pinpoint the source of mysterious noises during diagnostic work.

9154931 **17.99**

Deluxe Compression Tester Kit
Easy-to-read gauge with 17 in. flexible hose and 5 adapters.

9154923 **69.99**

Cooling System Pressure Tester
- Detects internal or external engine leaks such as radiators, heater cores, blown head gaskets, cracked block/heads, etc.
- Reads pressure range: 0 to 36 PSI.
- Kit includes hand pump, case and 12 adapters to fit popular domestic and import cars and light trucks.

9154808 **219.99**

Turbocharger System Leakage Tester
- Locates air leaks in turbo-system components by plugging the intake inlet and the output side of the turbo.
- Includes 4 pairs of stepped adapters to fit most turbo systems on cars and light trucks.
- Step adapters range from 1-3/8 to 3-1/2 in.

9155060 **142.99**

Fuel Injection Pressure Tester
- Quickly and accurately diagnose drivability problems relating to the fuel injection system.
- Identify low pressure, faulty pressure regulator, leaking injectors, leaks or clogged fuel filters.
- Includes Ford, GM and Chrysler test adapters and a T-adapter for import vehicles.

9154881 **79.99**

Slack-Adjust Tool Set
- For adjusting automatic slack adjusters on Meritor Rockwell systems.
- Material: Steel
- Includes: Offset 5/16 in. ratcheting wrench and fork-end tool

9121286 **52.99**

AUTO REPAIR

Vacuum Pump Kit

Includes: Brake bleeder/vacuum pump, 2 in. pressure gauge, vacuum release control, operation jar lid, transport jar lid, reservoir jar, two 2 ft 1/4 in. I.D. vacuum hoses, three 1/4 in. I.D. vacuum hoses, 6 tapered hose adapters, T-hose connector, straight hose connector, 2 brake bleeder screw adapters, universal cup adapter, 2 plugs and vacuum hose adapter

9121278 ..... **52.99**

Brake Bleeding Kits

	Type	Includes	ITEM	PRICE
A	1-person	Bottle, 3 hoses and 4 adapters	9121195	14.99
B	Standard	Cup, hose and 3 adapters	9121203	12.99

Radiator Pressure Tester

- For Use with: Pressurized cooling systems up to 30 PSI
- Includes: Hand pump with 35-PSI gauge, thumb-operated relief valve and quick-connect adapters

9121369 ..... **149.99**

Pneumatic Brake Bleeder Kit

Includes: Fixing valve, 2 safety cups, non-sparking pneumatic extractor and universal rubber adapter

9121187 ..... **169.99**

Vacuum-Testing/Brake-Bleeding Kit

Includes: Vacuum pump, reservoir jar, transport lid, 24 in. vacuum hose, universal cap adapter and 1/4 in. I.D. vacuum hose.

9060831 ..... **34.99**

Brake Service Tools

	Brand Name	Type	Applications	ITEM	PRICE
C	Performance Tool	Brake spoon	Use to adjust the ratcheting mechanism on conventional shoe-fitted vehicles and fits 1/2 x 1/16 in. openings or larger. Chrome-plated steel.	9121302	8.99
D	Performance Tool	Brake piston caliper tool	Use with 3/8 in. dr tools to rotate and depress brake caliper pistons on most domestic and some import vehicles.	9121252	14.99
E	Performance Tool	Brake spring pliers	Use to remove and install brake-shoe return springs on most drum brake systems. Chrome-plated steel construction.	9121260	15.99
F	Performance Tool	Brake cylinder hone	Use with any electric drill for brake cylinder honing of 1 to 2-3/4 in. cylinders on or off most vehicles.	9121237	17.99
G	Performance Tool	Brake spring hook	For removing and installing headlight and brake-adjustment springs.	9121245	16.99
H	Performance Tool	Brake spring compressor tool	Use to remove and install 11/16 to 7/8 in. dia. retainers on the drum brakes of most cars and trucks.	9121229	17.99
I	Lisle	2 pc brake caliper hanger set	For hanging the disc brake caliper out of the way while keeping tension off the brake line.	9039322	16.99
J	Lisle	Brake caliper brush	Removes brake dust, rust and other debris from brake caliper castings.	9039348	16.99
K	Lisle	Speedy disc brake piston compressor	Quickly compresses disc brake pistons to simplify brake pad replacement. Aluminum and steel construction.	8885550	79.99
L	Lisle	Dual-piston disc brake piston compressor	Compresses dual disc brake pistons to simplify brake pad replacement. Aluminum and steel construction.	8885543	89.99
M	Lisle	Disc brake piston compressor	Compresses the caliper piston of disc brakes for easy pad installation. Carbon-steel construction.	9039298	19.99
N	Performance Tool	6 pc brake hub resurfacing kit	Removes buildup from lug studs and rotors. Includes a holder with a 1/4 in. shaft and 5 sanding pads that accept up to 1/2 in. studs.	9148057	39.99
O	Performance Tool	Brake lining thickness gauge	Use to measure remaining brake lining on vehicles. Enamel-coated steel construction. Etched size markings.	9154568	26.99

Brake Spreaders

	Type	Spreader Size (in.)	Material	Handle Type	ITEM	PRICE
A	Universal brake pad spreader	4-1/2L x 2W x 1/4H	Steel	3/4 in. or adjustable wrench	**9121310**	**31.99**
B	Disc brake spreader caliper	3-3/4L x 1-3/4W x 1/4H	Steel	Bi-directional spreader	**9121328**	**52.99**
C	Disc brake pad spreader	4L x 1/8W x 1-3/4H	Steel/plastic	Thumb wheel	**9121336**	**11.99**

Handheld 3/16 in. Double-Flaring Tool
- Material: Carbon steel
- Capacity: Makes 45° SAE double flares
- For Use On: 3/16 in. (5 mm) aluminum, copper, nickel-copper and thin wall steel tubing
- Includes: Handle, 45° adapter, double flare adapter, compression screw

9388331 **84.99**

Hand Brake Tubing Bender
- Fits: Tubing up to 5/16 in. (8 mm) overall diameter
- Overall Length (in.): 10-1/2
- Material: Steel

9320144 **10.99**

Hub Remover
- Fits: Most 5, 6 and 8 lug hub assemblies
- Overall Length (in.): 8
- Material: Steel

9210899 **199.99**

11 pc Brake Caliper Socket Set
- Material: Chrome-vanadium steel
- Includes: 1/4, 5/16 and 3/8 in.; 7, 8, 10 mm; Star: T40, T45, T47, T50 and T55

9281932 **19.99**

TITAN

7 pc Autobody Repair Kit

- For Use On: Automobile fender, bumper, large or small body dents
- Includes: Utility pick hammer, cross chisel curved hammer, cross chisel shrinking hammer, thin toe dolly, heel dolly, utility dolly and light dinging spoon

9418880..... **199.99**

Performance Tool

7 pc Autobody Repair Kit

- Material: Forged steel, fibreglass, rubber
- Includes: Heavy shrinking hammer, pick and finish hammer, straight pein finishing hammer, heal dolly, utility dolly, double-end dolly and curved dolly

9179292..... **89.99**

Performance Tool

Slide Hammer Pilot Bearing Puller

- Includes 4 different adapters.
- Compatible with most standard vehicles.

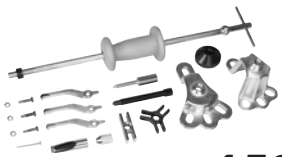
9143819..... **159.99**

Performance Tool

Slide Hammer Puller Set

- Includes 5 lb hammer and 2- and 3-jawed attachments.
- Material: Steel

9143579..... **159.99**



9 pc Dent Puller and Seal Set
Includes: Slide hammer, large panel puller, small panel puller, attachment holder, large puller hook, small puller hook, large dent puller screw, small dent puller screw and screw holder
9179334 **59.99**

Fender Roller Tool
- Use to roll the inner lip of a fender to increase clearance from the tire.
- Ideal for lowered vehicles.

8655888 **139.99**

Pulley Puller and Installer Set
Material: Steel
9143629 **54.99**

Crossbar Dent Puller
Includes: Glue gun, glue sticks, crossbar with dent lifters, dowel finishing tool, bottle, plastic scraper for adhesive removal
9179052 **26.99**

3-Position File Holder
Handle Size (in.): 3-7/8 x 1

9510454 ..... **129.99**

TECH TIP

Strap Wrenches

Strap wrenches are a game-changer when removing or installing oil filters. Unlike traditional metal wrenches, the flexible strap grips the filter evenly without crushing or damaging it, making them perfect for odd spaces and smooth surfaces. They provide excellent leverage, reduce the risk of slippage, and work on a variety of sizes, making them a versatile tool for any shop or garage. Available in a variety of materials, these work great on holding pulleys when removing bolts or opening stubborn jars.

4 pc Hose Remover Set
- Material: Steel/plastic

TECH TIP

Serpentine Belt Tools
Modern vehicles have a spring-loaded belt tensioner that can be moved back, allowing free removal and replacement of the belt without an extra set of hands. The slim design of the tools helps you reach tight spaces where a regular ratchet won't fit, which is perfect for cramped engine bays.

A	XL C-frame ball joint tool	Heavy duty forged steel	Ideal for removing larger ball joints on press-fit ball joints found in pickup trucks and SUVs. Opening size: 8-3/4 in.	9064932	149.99
B	Ball joint separator	Forged alloy steel	For separating the ball joint from the spindle arm. Adjustable for different size ball joints. For use on many domestic and import vehicles.	9064957	44.99
C	Adjustable tie rod separator	Steel	For separating ball joints, tie rods, pitman arms, steering dampeners, and shock linkages. Adjustable to fit 11/16, 15/16, 1-1/8, 1-7/16, 1-5/8 in.; 18, 24, 30, 36, and 43 mm. Tough enough to handle any suspension job on most cars and light trucks.	9064973	42.99
D	Outer tie rod puller	Heavy duty steel/ heat-treated jaws	Removes outer tie rods and many gears and pulleys. Centre-pin design.	9064999	59.99
E	Tie rod tool	Drop-forged steel	For many foreign and domestic autos and light trucks. Removes tie rod from connecting links. Opening size: 21/32 in.	9065004	17.99
F	Inner tie rod tool	Drop-forged steel	An inexpensive way to remove inner tie rods without removing the outer tie rod first. Fits all inner tie rods with a 1-3/16 and 1-5/16 in. hex.	9065020	17.99
G	Tie rod end puller	Drop-forged steel	Centre tip on forcing screw swivels to help remove and prevent damage to the tie rod stud. For use on imports and front-wheel-drive vehicles, including SUVs with rack-and-pinion steering. Opening size: 1-5/8 in.	9065046	17.99
H	Inner tie rod tool master set	Forged steel	Designed to remove and install inner tie rods quickly and easily. Includes 6 SAE and 6 metric adapters to cover a wide variety of vehicle makes and models. Forged-steel construction. Opening size ranges: 1-1/4 to 1-1/2 in. and 29 to 42 mm.	9065103	119.99
I	5 pc front-end service set	Drop-forged steel	Includes 2 pitman arm pullers, 2 ball joint separators, 3 tie rod pullers and moulded storage case.	9065111	189.99
J	15/16 in. Ball joint tool	Drop-forged steel	Simply position and strike with a hammer to separate and remove ball joints. Drop-forged steel construction.	9065012	15.99

4-in-1 Ball Joint Service Kit

- Ideal for servicing press-fit-type ball joints without removing the control arm.
- Service most car and light truck U-joints either on or off the vehicle.
- The 4 x 4 adapters allow removal and installation of upper and lower ball joints on 1967 to current 4WD vehicles with Dana 44 axles.
- In addition, remove and install brake anchor pins.
- Expand the service capabilities of this set with 9065095 Master Ball Joint Adapter Set.

9064924 **189.99**

Master Ball Joint Adapter Set

- This set expands the service capabilities of the 9064924 4-in-1 Ball Joint Service Kit.
- Includes all receiving tubes and removing/installing adapters needed to work on most GM, Ford and Dodge two- and four-wheel drive pickups, vans and SUVs through 1997.
- Works on press-fit upper and lower ball joints.
- Set also includes the live centre forcing screw plug.
- Application chart included.

9065095 **219.99**

Seal Puller

- Two hook sizes.
- Chrome-plated steel with vinyl grip.

9143660 **10.99**

Indexing Oil Seal Puller

- Quick-adjust head with a press of the button.
- 14 different locking positions and 195° of adjustment.
- Ideal for pulling seals on front wheel drive transaxles, camshafts, and crankshafts without removing the radiator.
- Overall length: 12 in.

12 pc Wheel Stud Installer Set
Size (in.): 1/2 to 20, M12 x 1-1/4, M12 x 1-1/2, M14 x 1-1/2 and M14 x 2.0

9551185 **89.99**

PERFORMANCE TOOL

Universal Bearing Packer
- Forces out old grease and evenly injects fresh grease into bearings.
- Simply place the bearing between the plastic cones, and tighten and apply grease through the fitting on the threaded shaft.

9143645 **20.99**

Lisle

Handy Packer Bearing Packer
- To pack a bearing, place the bearing on the piston, then press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.
- Size (in.): Works on bearings up to 3-1/2 in. O.D.

9039306 **39.99**

PERFORMANCE TOOL

5 pc Tie Rod/ Ball Joint Separator Kit
- For separating most types of pitman arms, tie rods and ball joints found on automotive and light truck applications.
- Opening range: 1-1/16, 1-5/16, 1-3/8, 1-5/8 and 2-1/32.
- Drop-forged steel.

9219288 **109.99**

PERFORMANCE TOOL

5 Ton Bar Puller Separator Set
- Separator tools are used with the bar puller and legs for a wide variety of pulling jobs.
- Includes 2 and 3 in. bearing splitters and 4 sets of hex push-puller legs.
- The 5 in. puller crossbar with a 6-1/4 in. forcing screw can be used independently.
- Use the bearing separators separately or in combination with the other pullers and tools.

9064940 **119.99**

ELECTRIC / GAS AIR COMPRESSORS

TECH TIP

WHEN SHOULD I CHANGE MY AIR COMPRESSOR OIL?

Every manufacturer has a suggested routine maintenance schedule laid out in the owner's manual. Most compressors will have a suggested oil type, and a suggested number of working hours to fall before a change is required. Some suggest an oil change after a short break-in period and then a set number of hours after that.

With hour counts ranging anywhere from 500, 1000 to 2000 or more, it is important to educate yourself on what your compressor requires and follow it to the letter. This allows the pump to work with a supply of fresh oil to keep the pump internals clean and lubricated. Oil technology is improving, and pump designs like piston-driven and screw-type differ as do the working environments.

Keep a log of your oil changes and approximate hours to save you from an unexpected repair and unforeseen downtime from a lubrication-based failure or repair. A little effort goes a long way in protecting your investment.

POWERFIST

N) In-Line Desiccant Air Dryer

- This 37 in. air dryer is perfect for blasting and painting, as it eliminates moisture from compressed air supply systems.
- Connection type: 1/2 in. NPTF
- Max. Pressure (PSI): 175
- Flow Rate (CFM): 17

8055757 ..... 159.99

O) Air Dryer Dessicant

- Removes more than 3-1/2 lb of water (per lb of desiccant tablets) from air systems.
- Use these pellets to remove unwanted water from compressed air systems.

8506206 ..... 51.99

POWERFIST

1/2 in. Air Filter and Dryer

- Removes dirt, contaminants, oil vapours and water from compressed air systems to ensure clean, dry air for paint spray operations.
- Feature 2 bowls with viewing windows, filter with pressure gauge, 0.01-micron filter element and includes 4 pc dryer desiccant (silica gel).
- Max. Pressure (PSI): 210
- Flow Rate (CFM): 45

8650400 ..... 279.99

Desiccant for Air Filter and Dryer *8502098* and *8650400*

Remove the water vapour from compressed air systems.

TECH TIP

AIR TOOL LUBRICATION

Keep your air tools lubricated and working to their maximum potential by adding a high-quality air tool oil each time you use them. A lubricator can be added to blend in oil to keep dedicated tools protected continuously. Got a job that is too big to get in the shop and the temperatures have dropped? Use a synthetic blend of all-weather oil to keep the tools working as hard as you are.

Also consider adding a filter or water separator to trap any moisture that may travel along with the oil. It's harder to remove that just water alone.

A good rule of thumb for filter or dryer mounting is to install it 20-25 ft. downstream from the tank. This allows the hot compressed air to cool and moisture in vapor form to condense, allowing it to be trapped more effectively. Draining your air tank daily, or even throughout the day in humid environments will set you up for success.

BluBird

Ultra-Light Rubber Air Hoses

- Up to 40% lighter than standard red rubber air hoses. Ozone-resistant cover provides protection against extreme weather, abrasions and kinks. Polyester-braided reinforcement handles high-pressure applications. Four-finger grip bend restrictor for better ergonomics.

TECH TIP

DRAINING G WATER FROM YOUR COMPRESSOR TANK

Drain the moisture from your compressor tank daily.
If you are running it outside in humid conditions or a damp shop, keep draining it throughout the day. Make sure the tank is drained down to zero psi. Water passing through your air tools decreases their lifespan and, costs you money in the long run.

As the moisture travels through your airlines and into your tools, mixing with air tool oils, it will be less able to evaporate causing a slurry of contaminated oil to rust and gall internal tool components. Take the easy steps to getting as much water out of your system as possible with our selection of dryers, filters and air lines at princessauto.com.

20V 1/2 in. Li-ion Cordless Hammer Drill Kit
- Chuck Type: Single sleeve all metal keyless chuck with lock
- Voltage Rating (V AC): 120
- Battery Capacity (Ah): 1.5
- Charge Time (minutes): 50
- No Load Speed (RPM): 0 to 450 and 0 to 1,700
- Blows per Minute (BPM): 0 to 7,200, 0 to 27,200
- Torque Rating (in.-lb): 450
- Reversing: Yes
- Includes: Hammer drill, battery, charger and tool bag
- Available in-store only

9054685 **109.99**

20V 1/2 in. Cordless Hammer Drill, Tool Only
- Chuck Type: SDS-Plus
- Drilling Capacity (in.): Steel: 1/2, Concrete: 3/4, Wood: 1-1/2
- No Load Speed (RPM): 0 to 1,400
- Blows per Minute (BPM): 0 to 4,500
- Torque Rating (in.-lb): 398
- Reversing: Yes
- Includes: Auxiliary handle and depth gauge

9187006 **89.99**

20V 1/2 in. Cordless Impact Wrench, Tool Only
- Tighten or loosen large nuts, bolts and other fasteners with this cordless impact wrench.
- It features a built-in LED work light and die-cast aluminum gear housing.
- Torque Rating (ft-lb): 330
- Blows per Minute (BPM): 0 to 3,300
- No Load Speed (RPM): 0 to 2,300
- Reversing: Yes

9049016 **99.99**

20V 4-1/2 in. Cordless Angle Grinder, Tool Only
- Arbor Size: 5/8 in. - 11
- No Load Speed (RPM): 8,500
- Includes: A wrench and arbor nut

9049024 **59.99**

20V Cordless Nailer, Tool Only
- Gauge: 18
- Fastener Type(s): Brad nails and staples
- Fastener Length(s) (in.): Nails: 3/4 - 2, Staples: 3/4 - 1-9/16

9186990 **139.99**

20V 1/2 in. Cordless Drill/Driver, Tool Only
- No Load Speed (RPM): 0 to 450 and 0 to 1,700
- Torque Rating (in.-lb): 450
- Reversing: Yes

9048984 **59.99**

20V 1/4 in. Cordless Impact Driver, Tool Only
- Impact Rate (IPM): 0 to 3,300
- No Load Speed (RPM): 0 to 2,900

9049008 **69.99**

20V 1/2 in. Cordless Brushless Impact Wrench, Tool Only
- Torque Rating (ft-lb): 516
- Blows per Minute (BPM): 1,850 to 3,200
- No Load Speed (RPM): 1,200 to 2,100
- Reversing: Yes

9296625 **159.99**

20V 3/8 in. Cordless Ratchet Wrench, Tool Only
- Torque Rating (ft-lb): 60
- No Load Speed (RPM): 0 to 250
- Reversing: Yes

9187014 **69.99**

20V Cordless Brushless Die Grinder, Tool Only
- Collet Size (in.): 1/4
- No Load Speed (RPM): 10,000 to 26,000

9296633 **59.99**

20V Cordless Caulking Gun, Tool Only
- Variable speed adapts to a variety of applications.
- Delivers high pushing force or up to 440 lb (200 kg) for easy operation.
- Quick-release button for fast reloading.
- Built-in LED light illuminates the work area.

9217142 **49.99**

20V CORDLESS TOOLS

20V POWERFIST

20V 4-1/2 in. Cordless Mini Circular Saw, Tool Only
- Blade Size (in.): 4-1/2
- Cutting Depth (in.): 90°: 1-11/16, 45°: 1-1/8
- Bevel Capacity (°): 0 to 45
- No Load Speed (RPM): 4,500
- Includes: (1 ea) Blade, hex wrench and guide

9049065 **79.99**

20V Cordless Metal Shear, Tool Only
- Ideal for making precision cuts in sheet metal, aluminum and plastic.
- Cutting Capacity: Sheet metal: 2 mm/14 gauge; stainless steel: 1.2 mm/18 gauge

9296641 **129.99**

20V 10 in. Cordless Orbital Polisher, Tool Only
- Orbits per Minute (OPM): 3,000
- Includes: Terry cloth and woven bonnet

9049107 **49.99**

20V Cordless Detail Sander, Tool Only
- Orbits per Minute (OPM): 24,000
- Pad size (in.): 5-1/2 x 3-3/4
- Includes: Dust box and (3) sandpapers
- Orbits per Minute (OPM): 24,000
- Sandpaper Size: 5-1/2 x 3-3/4 in.
- Includes: Dust box and (3) sandpapers

9049081 **29.99**

20V Cordless Paint Spray Gun, Tool Only
- Amperage Rating (A): 7.6
- Nozzle Size (mm): 2.0, 1.5, 1.0
- Flow Rate (LPM): 0.5
- Cup Capacity: 1,200 ml
- Includes: Cleaning brush, cleaning needle, viscosity cup and (3) nozzles

9296617 **79.99**

20V Brushless Nibbler, Tool Only
- Ideal for: Making precise straight and curved cuts in sheet metal, plastic, aluminum and tin.
- Strokes Per Minute (SPM): 1,900
- Stroke (in.): 5/8
- Includes: Side handle, hex key

9419490 **99.99**

20V 6-1/2 in. Cordless Circular Saw, Tool Only
- Blade Size (in.): 6-1/2
- Cutting Depth (in.): 2-1/8
- Bevel Capacity (°): 0 to 45
- No Load Speed (RPM): 4,000
- Includes: (1 ea) Blade, guide and dust tube

9049032 **79.99**

20V Cordless Oscillating Tool, Tool Only
- Quick-change tool-less blade release makes swapping blades and accessories easy.
- Features 5,000 to 19,000 oscillations per minute

9187022 **59.99**

20V Cordless Jigsaw, Tool Only
- Speed Control: Yes
- Cutting Capacity (in.): Wood: 3-1/8, steel: 3/8, plastic: 1/2
- Strokes Per Minute (SPM): 0 to 2,400
- Bevel Angle (°): 0 to 45
- Includes: (1 ea) Metal blade, wood blade, guide and dust tube

9049040 **59.99**

20V Cordless Reciprocating Saw, Tool Only
- Stroke Length (in.): 1-1/8
- Strokes Per Minute (SPM): 0 to 2,900
- Includes: (1 ea) Wood and metal blade

9049057 **79.99**

20V Cordless Random Orbital Sander, Tool Only
- Orbits per Minute (OPM): 6,000 to 12,000
- Pad size (in.): 5
- Includes: Dustbag and (3) sandpapers
- Orbits per Minute (OPM): 6,000 to 12,000
- Sandpaper Size: 5 in.
- Includes: Dust bag and (3) sandpapers

9049099 **39.99**

20V Brushless Rotary Tool Kit, Tool Only
- Collet Size: 1/8 in.
- No Load Speed (RPM): 5,000 to 33,000
- Includes: (5) cut off wheels, (10) sand papers, (3) grinding wheel with shanks, (2) sand shanks, (6) sanding bands, (1) drill, (3) diamond bits, (2) mandrels, (4) felt wheels, (1) steel wire brush, (1) spanner, (1) polishing compound, (1) HSS cutter

9419482 **49.99**

20V Cordless Heat Gun, Tool Only
- Wattage Rating (W): 300
- Temperature Range: 0 to 500°C (0 to 932°F)

9049073 **49.99**

3 in. 20V Brushless Cut-Off Saw, Tool Only
- No Load Speed (RPM): 20,000
- Cutting Capacity (in.): 5/8
- Arbor Size (in.): 3/8

9419516 **69.99**

4-1/2 in. 20V Brushless Grinder, Tool Only
- Arbor Size: 7/8 in.
- No Load Speed (RPM): 8,000
- Includes: Side handle, grinding guard, spanner

9419508 **89.99**

TECH TIP

TIGHTEN UP!

Thread-locking compounds are generally referred to using colour, fastener size, and holding strength.

Blue: Used for fasteners ranging from all nut and bolt applications sized 1/4 to 3/4 in. (6 to 20 mm) and is easily removable with regular hand tools.

Orange: Up to 3 times stronger than blue. Rated for high-vibration applications and fasteners sized 1/4 to 1 in. (6 to 20 mm) and can be removed with regular hand tools with extra effort applied.

Red: Holds a high resistance to chemicals, environmental conditions, and heavy shock loads. Rated for fasteners ranging from 3/8 to 1 in. (10 to 25 mm), it will require localized heating and hand tools to aid in removal.

Available in liquids or gels, selecting the right thread-locking compound will keep your hardware secure, reduce failures caused by vibration, and help your equipment perform reliably for the long haul—saving you time and money by preventing unnecessary breakdowns.

BOSCH

1 in. Electric SDS-plus Rotary Hammer

- Blows per Minute (BPM): 5,800
- No Load Speed (RPM): 1,300
- Includes: Auxiliary handle, depth gauge and a carrying case

TECH TIP

Turn Down The Heat A Little Bit!

When drilling thicker metals, slow down the tool speed and apply only light pressure on the tool. Use an oil made for this process, commonly referred to as 'cutting fluid'. Drilling is one of the methods of material removal this oil was designed for. It will aid in dissipating the heat generated by the process and help to increase the lifespan of your drill bits, blades, and cutting tools.

Electric Pistol-Grip Metal Shear

- Cutting radius: 5-1/2 in.
- Cutting capacity: Aluminum: 14 gauge; mild-steel: 18 gauge; stainless-steel: 20 gauge.
- Blade material: High-carbon steel

Diamond Cutting Blades

- These blades are used with angle grinders and circular saws for wet or dry cutting concrete, masonry, tile, granite, marble, asphalt and brick.
- Turbo: Faster, smoother cuts and have an exceptionally long lifespan.
- Thin turbo: Faster, thinner, smoother cuts and have an exceptionally long lifespan.
- Continuous: The smoothest cuts of all diamond blades and best suited for wet cutting.
- Segmented: The segmented design delivers fast, more aggressive cutting.

POWERFIST

5 pc 3 in. Twist-Lock Stripping Discs

- Abrasive Material: Silicon carbide
- Arbor Size (in.): 1/4
- Speed Rating (RPM): 15,000
- Backing Material: Plastic
- For use with: Removing painting, rust, weld spater

OUR
HANDSHAKE
SHAKING HANDS WITH SOMEONE SEALS A DEAL.
IT REPRESENTS YOUR WORD. IT IS A BOND. WHEN YOU CHOOSE
TO BUY FROM US, WE'RE ESSENTIALLY SHAKING HANDS.
WE PROMISE TO BE HERE FOR YOU, BECAUSE WE RESPECT
WHO YOU ARE AND WHAT YOU'RE DOING.
We pride ourselves on helping you create the ideas in your head and putting the right tools in your hands. We are thrilled when you stop by on your way to solve a problem, or when you choose to linger longer and talk to us about turning some dream into reality.
We believe in our lasting relationship and will always help you get things done right. We promise to provide you with an unrivalled range of products, a positive can-do attitude and second-to-none service, because we honestly believe that together, we can figure anything out.
PRINCESS AUTO

POWERFIST

75A Mini Inverter Stick Welder
- Input Voltage (V): 120
- Mild Steel Weld Thickness Range: Up to 1/8 in.
- AC/DC Output: DC
- Includes: Ground lead and electrode holder

8785008 ..... **189.99**

90A Flux Core Welder
- Input Voltage (V): 120
- Mild Steel Weld Thickness Range: 18 gauge to 3/16 in.
- AC/DC Output: AC

9195264 ..... **219.99**

125A Inverter Flux-Cored Welder
- Input Voltage (V): 120
- Mild Steel Weld Thickness Range: Up to 3/16 in.
- AC/DC Output: DC

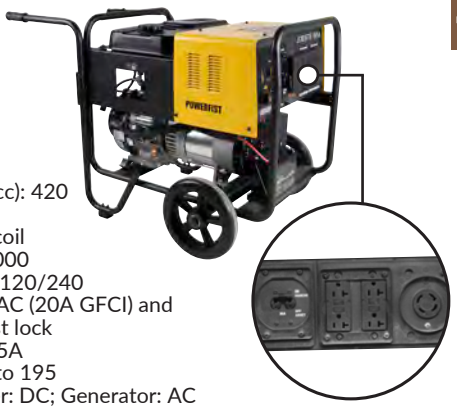
8785099 ..... **269.99**

130A Inverter MIG Gas/Flux-Cored Welder
- Input Voltage (V): 120
- Mild Steel Weld Thickness Range: 22 gauge to 1/8 in.
- AC/DC Output: DC
- Welding Gas Required: Argon/CO2

8785107 ..... **379.99**

200A Multi-Process Welder with LCD Display
- Type: Multi-Process: Stick/MIG/TIG
- Input Voltage (V): 120/230
- Duty Cycle: 120V: 40%; 230V: 20%
- Mild Steel Weld Thickness Range: 120V - stick: 1/16 in.; MIG: 1/16 to 1/8 in.; DC TIG: 1/16 to 1/8 in.; 230V - stick: 1/16 to 3/8 in.; MIG: 1/16 to 9/16 in.; DC TIG: 1/16 to 9/16 in.
- AC/DC Output: DC
- Welding Gas Required: MIG: Argon/CO2; TIG: Pure argon
- Includes: MIG torch, ground lead, electrode holder, regulator, quick-connector and gas hose with clamp

9038787 ..... **1399.99**

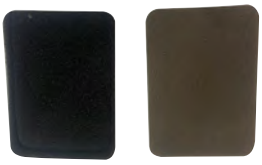


Jobsite 195A ARC Welder/Generator
- Engine Displacement (cc): 420
- Fuel Type: Gasoline
- Start Type: Electric/recoil
- Running Watts (W): 6,000
- Voltage Rating (V AC): 120/240
- Receptacles: (4) 120V AC (20A GFCI) and (1) 240V AC (30A) twist lock
- Duty Cycle: 30% @ 195A
- Current Range (A): 20 to 195
- AC/DC Output: Welder: DC; Generator: AC
- Mild Steel Weld Thickness Range: 22 gauge to 3/8 in.

9125766 ..... **2799.99**

10 ft TIG Torch for Multi-Process Welder 8785115 and 9038787
Ergonomic design provides comfort and control during heavy duty welding jobs.

8785131 ..... **99.99**



2 pk Air Filters for Welder/Generator 9125766

9125758 ..... **7.99**

Foot Pedal Control for 8785081 and 9038787
This steel foot pedal provides users with precise, infinite amperage control for TIG welding.

8785164 ..... **119.99**

Automatic Voltage Regulator for Welder/Generator 9125766

9125741 ..... **29.99**

105A Inverter MIG Gas/Flux-Cored Welder

- Input Voltage (V): 115
- Duty Cycle: 20% @ 105A
- Output Current (A): 105
- Mild Steel Weld Thickness Range: Up to 3/16 in.
- AC/DC Output: DC
- Includes: Regulator, torch, ground lead and roll of flux-cored .030 in. wire

8958696 **469.99**

170A Dual-Voltage TIG/Stick Welder

- Type: Multi-process: TIG/Stick Welder
- Input Voltage (V): 115/230
- Duty Cycle: Stick/DC TIG - 115V: 30% @ 115A; 230V: 30% @ 170A
- Mild Steel Weld Thickness Range: Up to 3/16 in.
- AC/DC Output: DC

8611295 **799.99**

200A AC/DC Inverter TIG/Arc Welder

- Input Voltage (V): 115/230
- Mild Steel Weld Thickness Range: Up to 3/16 in.
- AC/DC Output: 5 to 200 @ 230V, 5 to -125 @ 115V
- Welding Gas Required: Argon
- Includes: TIG torch, gas regulator, earth return lead and 230V to 115V adapter

9085986 **2299.99**

145A Dual-Voltage Multi-Process Welder

- Type: Multi-process: Stick/MIG/TIG
- Input Voltage (V): 115/230
- Duty Cycle: 115V: 25% @ 80A; 230V: 25% @ 145A
- Mild Steel Weld Thickness Range: Up to 3/16 in.
- AC/DC Output: DC

8619470 **1399.99**

PROCUT 30A Plasma Cutter

- Input Voltage (V): 115/230
- Duty Cycle: 115V: 35% @ 24A; 230V: 35% @ 12A
- Rated Cut Capacity: 1/4 in. mild steel
- Sever Capacity: 1/2 in. mild steel
- Air Consumption (CFM): 6 CFM @ 75 PSI
- Includes: Pre-assembled torch assembly and ground lead, 115/230V adapter, electrode and nozzle

8784639 **849.99**

PROCUT 30A Digi Plus Plasma Cutter

- Input Voltage (V): 115/230
- Duty Cycle: 35% @ 30A
- Rated Cut Capacity: 5/16 in. mild steel
- Sever Capacity: 1/2 in. mild steel
- Air Consumption (CFM): 6 CFM @ 75 PSI
- Includes: 12 ft torch, return lead and 230V to 115V adapter

9085754 **999.99**

PROCUT 45A Plasma Cutter

- Input Voltage (V): 230
- Duty Cycle: 30% @ 45A
- Rated Cut Capacity: 1/2 in. mild steel
- Sever Capacity: 1 in. mild steel
- Air Consumption (CFM): 6.7 CFM @ 75 PSI
- Includes: Pre-assembled sure-grip torch assembly and ground lead, electrode and nozzle

8611303 **1399.99**

NEW!

PROCUT 60A Plasma Cutter

- Input Voltage (V): Single phase: 230
- Duty Cycle: 40% @ 60A
- Rated Cut Capacity: 1 in.
- Sever Capacity: 1-3/16 in.
- Air Consumption (CFM): 4.5 CFM @ 75 PSI
- Includes: Ground lead set, 19 ft plasma torch, electrode and nozzle

9400805 **1999.99**

Digital Display w/ Integrated Touchpad

PROCUT 80A Plasma Cutter

- Input Voltage (V): 230
- Duty Cycle: 40% @ 80A
- Rated Cut Capacity: 1 in. mild steel
- Sever Capacity: 1-1/2 in. mild steel
- Air Consumption (CFM): 6.7 CFM @ 75 PSI
- Includes: Ground lead set, 19 ft plasma torch, electrode and nozzle.

HOBART WELDERS

HOBART WELDING PRODUCTS

NEW!

160 DC Stick Welder
- Input Voltage (V): 120/240
- Duty Cycle: 80A @ 15% duty cycle, 160A @ 15 duty cycle
- Current Range (A): 10 to 160
- Mild Steel Weld Thickness Range: 1/8, 3/8
- AC/DC Output: DC
- Electrode Size (in.): 1/16 to 5/32
- Includes: 10 ft electrode cable with heavy-duty holder, 10 ft work cable with clamp and power adapter

9422874 **899.99**

Handler 210 MVP MIG Gas/Flux-Cored Welder
- Input Voltage (V): 115/230
- Duty Cycle: 30% @ 150A; 20% @ 90 A
- Output Current (A): 210
- Mild Steel Weld Thickness Range: 115V: 24 gauge to 1/4 in.; 230V: 24 gauge to 3/8 in.
- AC/DC Output: DC

8666323 **2199.99**

Champion 145 DC Welder/ 4,500W AC Generator
- Engine Displacement (cc): 306
- Single-Phase Generator Power: 4,500W, 60 Hz, 120/240V AC, 4,000W continuous
- Duty Cycle: 30% @ 130A
- Current Range (A): 40 to 145
- AC/DC Output: DC welder; AC generator
- Electrode Size (in.): Up to 5/32

8666307 **4299.99**

150A SpoolRunner 100 Spool Gun Kit
- Threaded nozzle and enclosed wire-spool compartment with internal spool-hub tension adjustment for 4 in. rolls of wire.
- For use with *8666323* and *8998296*.

8666281 **549.99**

Handler 140EZ MIG Gas/Flux-Cored Welder
- Input Voltage (V): 120
- Duty Cycle: 30% @ 90A
- Output Current (A): 140
- Mild Steel Weld Thickness Range: 24 gauge to 3/16 in.
- AC/DC Output: DC
- Includes: 10 ft MIG gun, regulator and gas hose, extra tips and work cable with clamp

9473661 **1499.99**

Multi-Handler 200 Multi-Process Welder
- Input Voltage (V): 120/240
- Duty Cycle: 30% @ 110/165A (MIG); 30% @ 105/165A; (DC TIG); 30% @ 90/140A (stick)
- Mild Steel Weld Thickness Range: MIG/Flux cored 24-gauge 3/8 in.; DC TIG 22-gauge 3/16 in.; Stick 16-gauge 3/8 in.
- AC/DC Output: DC

8998296 **2599.99**

IronMan 240 MIG Welder
- Input Voltage (V): 240
- Duty Cycle: 60% @ 200A
- Output Current (A): 30 to 280
- Mild Steel Weld Thickness Range: 24 gauge to 1/2 in.
- AC/DC Output: DC
- Includes: 15 ft MIG gun, regulator/flow gauge, 5 ft gas hose, dual groove drive roll, 10 ft work cable with clamp, 0.030 and 0.035 contact tip set

9219858 **3499.99**

Hobart Champion Elite 225 DC Stick Welder/10,000W AC Generator
- Engine Displacement (cc): 627
- Start Type: Electronic ignition
- Running Watts (W): 9,500
- Voltage Rating (V AC): 115/230
- Receptacles: (4) 120V (20A) GFCI protected outlets, (1) 240V (NEMA 6-50R) 50A receptacle and (1) 120/240V (NEMA 14-50R) 50A receptacle with push-button reset circuit breaker
- Duty Cycle: 100% @ 225A
- Current Range (A): 25 to 225
- AC/DC Output: DC welder/AC generator
- Mild Steel Weld Thickness Range: 1/2 in.
- Electrode Size (in.): 1/8

POWERWELD

Victor-Style Cutting and Welding Kit

- Features all the accessories needed for welding, cutting, soldering, brazing, gouging and heating. Cuts 1/2 to 6 in. steel and welds 1/4 in. to 1-1/4 in. steel (with optional tips).
- Brass and stainless-steel torch handle with 2 stainless-steel needle valves for fast, accurate flame adjustment. Forged and extruded brass O-ring seals for durability.

8591091 **299.99**

PRO-POINT

Victor-Style Heavy Duty Cutting and Welding Kit

- Cuts steel up to 3/4 in. or 6 in. (with optional tips). Welds up to 1/8 in. or up to 3 in. (with optional tips).
- Can be used with a wide variety of gases, including oxygen, acetylene and LP gases (propane and natural gas), for versatility.
- Includes an oxygen regulator, acetylene regulator, torch, cutting nozzle, 3 welding tips, heating nozzle, twin rubber hose, tip cleaner, wrench, gas lighter and goggles.

8835910 **599.99**

E) Argon/CO2 Regulator

- Pressure Rating (PSI): 4,000
- Flow Rating (SCFH): 20 (CO2) and 30 (argon)
- Connection Type: CGA580 (inlet), 1/4 in. (outlet)

TECH TIP

Straight cuts with metal chop saws
When using a metal chop saw don't force the cut. Let the saw blade do the work. Forcing the cut will stress the blade and you will end up with a cut that is not true. Only light pressure is required.

4 kg Clay Graphite Foundry Crucible

- Capacity: Aluminum: 1.4 kg/copper: 4 kg
- Interior Size (in.): 3-3/8 (top) x 2 (bottom) x 4-1/2 (height)
- Temperature Rating: 850 to 1,600°C (1,560 to 2,912°F)

8979692 **22.99**

TECH TIP

Did you know?

Graphite crucibles excel in forging because they handle extreme heat, resist chemical reactions and have low thermal expansion making them durable and ideal for pure, high-quality melts.

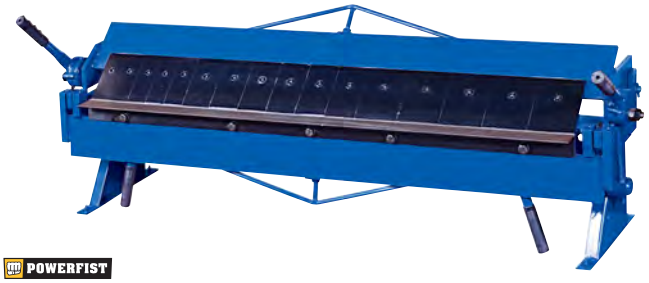
- Mild Steel Capacity (in.): 0.08

9216789 **599.99**



POWERFIST

48 in. Box and Pan Sheet Metal Brake

- Ideal for increasing the strength of sheet metal plates with bends or fabricating more complicated brackets, gussets, boxes or fixtures.
- Mild Steel Capacity (gauge): 22
- Bending Radius (°): 0 to 135
- Material: Steel
- Includes: (16) removable fingers with widths of 2, 3 and 4 in.

9046228 **1299.99**

POWERFIST

3-in-1 Shear, Press Brake and Slip Roll Machine

- Shear: Cut up to 20-gauge mild steel to the full width of the 30 in. bed. Back to front gauge range is 1/2 to 16 in.
- Press Brake: The forming function utilizes sectional fingers (1, 2, 3, 6, 8 and 10 in.) to bend up to 20-gauge steel to a max. angle of 90°.
- Slip Roll: Form rolls, cones and wire loops using the 5/32, 11/64 and 7/32 wire-forming grooves with up to 20-gauge steel.

8536492 **949.99**

POWERFIST

Manual Slip Roll Machines

- Creates gentle arcs, cones or cylinders in mild steel or aluminum.
- Large handle crank and hardened, heavy-duty gearing gives you the mechanical advantage to easily roll mild steel up to 22 gauge.
- Gears are fully enclosed for protection.
- Quick-release top roller allows you to remove workpieces easily.

POWERFIST

8 in. Heavy Duty Vise-Mount Bead Roller

- Easily form and roll beads and create flanges.
- Capacity: 18 gauge (steel), 16 gauge (aluminum) and 20 gauge (stainless steel)
- Size (in.): Shaft: 22 mm

9046145 ..... **199.99**

POWERFIST

18-1/4 in. Bead Roller Kit

- Easily cut, form and roll beads as well as create flanges.
- Capacity: 18 gauge
- Size (in.): 1/16, 1/8 and 1/4 in. (flange mandrels); 1/4, 3/8 and 1/2 (bead mandrels)

8536773 ..... **279.99**

PRO-POINT

Rolling Pipe Bender Machine

- Dual driving rollers. Manual adjustment of the top roll.
- Makes difficult radius and complete circle bends in mild and stainless steel up to 1/16 in. thick.
- Mild Steel Capacity (gauge): 16
- Round or Square Solid Rod Capacity (in.): Up to 0.09
- Bending Radius (°): 360
- Includes: Nine round dies: 7/8 to 2-1/2 in. Three square dies: 3/4, 7/8 and 1-1/2 in.

8960502 ..... **2499.99**

PRO-POINT

Portable Pipe/Tubing Bender Kit

- Max. Bending Capacity: 3/8 to 1 in.
- Max. Bending Thickness (in.): .08
- Max. Bending Radius (°): 90
- Dies Sizes (in.): 3/8, 1/2, 9/16, 5/8, 3/4, 7/8 and 1

8708067 ..... **249.99**

POWERFIST

Gear Driven Metal Planetary Ring Roller with Hex Spindle

- Round or Square Solid Rod
- Capacity (in.): Round: 1/4

9216805 ..... **169.99**

POWERFIST

Gear Driven Metal Planetary Ring Roller

- Round or Square Solid Rod
- Capacity (in.): Round: 1/4

9216862 ..... **119.99**

POWERFIST

Compact Floor Metal Bender

- Max. Width: 2 in.
- Round or Square Solid Rod Capacity (in.): 5/8
- Includes: Dies: 1, 1-1/4, (2) 1-1/2, 1-3/4, 2, 2-1/2 and 3 in.; attachments: right angle and square

8536625 ..... **219.99**

POWERFIST

Manual Round Tubing Bender

- Laser-etched degree scale.
- Easy to use with a ratcheting style handle that improves leverage.
- Max. Bending Capacity: 2 in. round tubing (schedule 40 pipe)
- Max. Bending Radius (°): 120
- Dies Sizes (in.): 1 x 3, 1-1/2 x 5 and 1-3/4 x 6

8712929 ..... **899.99**

POWERFIST

Tubing Bender

- Bends steel, copper and aluminum tubing.
- The 4 in. dia. rollers make bending easier.
- Max. Bending Capacity: 3/4 to 2 in.
- Max. Bending Radius (°): 360
- Dies Sizes (in.): 1, 1-1/2 and 2

8536708 ..... **549.99**

POWERFIST

Metal Shrinker and Stretcher Set

- Makes smooth radius curves in sheet metal, along with stretching or shrinking aluminum and mild steel.
- Both tools can form curves to a radius as small as 3 in.
- Capacity: 18 gauge (steel); 16 gauge (aluminum)
- Throat Depth (in.): 1

8536807 ..... **249.99**

POWERFIST

Shrinker/Stretcher Stand

- Securely mount Powerfist's metal shrinker and stretcher set (*8536807*) onto this 37-7/8 in. high stand to improve operation.
- Features a foot pedal.

8536815 ..... **249.99**

Metal Shrinker and Stretcher
- Shrinks and stretches mild steel and aluminum for inside and outside curves.
- Perfect for autobody trim work and door-panel edging.
- Capacity: 16-gauge steel; 14-gauge aluminum
- Throat Depth (in.): 8

8623159 **369.99**

Heavy Duty Metal Shrinker and Stretcher
- Capacity: 16-gauge mild steel; 15-gauge aluminum
- Throat Depth (in.): 5-1/8

9216888 **599.99**

2-1/2 in. Pipe/ Tube Notcher
- Use with a 1/2 in. electric drill to make perfect joints for clean, secure welds.
- Degree Range (°): 0 to 210
- Increments (°): 1
- Spindle Size (in.): 1/2

8663817 **169.99**

Mini English Wheel
- Capacity: 18-gauge mild steel, 16-gauge aluminum
- Throat Depth (in): 7-1/2

9216896 **229.99**

Small English Wheel
- Shapes and smooths sheet metal up to 16 gauge and copper and aluminum up to 14 gauge without heating or hammering.
- Features a 5-3/4 in. top anvil die with 1/2, 1, 1-1/2,2-1/2, 5 and 9 in. bottom anvil dies.

8536831 **269.99**

English Wheel with Stand
- Shapes and smooths sheet metal up to 16 gauge and copper and aluminum up to 14 gauge without heating or hammering.
- Features an adjustable anvil yoke, built-in stand and 8 in. top anvil die with flat, 2, 3, 4, 6, 8 and 12 in. bottom anvil dies.

8536823 **749.99**

POWERFIST

Dimple Dies
Size (in.): 1/2, 3/4, 1, 1-1/4, 1-1/2, 1-3/4, 2, 2-1/2, 3

9216854 **349.99**

Surplus

SURPLUS ADDS OVER 5,000 NEW ITEMS EVERY YEAR

Surplus has been Princess Auto's most unique cornerstone for over 90 years.

The popular corner in our retail stores and on our website continues to delight our customers with reconditioned items, discount tools, ammo boxes, recreational items, pet toys, tech accessories, and lots more.

Click here to view the newest additions to the unique world of Surplus!

Ever tried levelling counters or appliances? How about lifting and holding a door in position during installation or removal, or shimming a window just right? If you plan to do this by yourself, this will be a big help. Saves you time and effort, with fewer colourful words during these kinds of jobs.

SURPLUS

Dust really messes with everyday tech by blocking vents and trapping in heat, which affects overall performance and damages sensitive electronic guts. Give dust the boot with a little burst of air that's safe for dusting computers, game consoles, and other hard-to-reach equipment areas.

Watching your device's battery drop to 10 percent or lower is stressful enough, especially when recording memories or important life events. With this power bank in your pocket, you'll have backup juice to get you through; its high capacity is perfect for heavy device users and travellers alike. Comes with built-in cables to power multiple devices.

You know when you're in the middle of meal prepping and whatever you're slicing just sticks to the knife blade? The holes in this stainless-steel blade aren't just for looks; these actually reduce blade friction and prevent food from sticking when slicing, chopping and mincing. Equally impressive is its stay-sharp edge for more cutting and less time resharpening the darn thing.

We should have tried this before using the staff room table as a cutting surface; now it looks like a cat went berzerk on it. This mat "heals" instantly after an incision, which helps keep your knife blade sharp. Handy grid for measuring and straight cutting, and non-slip backing.

In the event of an error, a notice will be posted in-store. Prices are subject to change without notice. Items may not be exactly as shown. Chemicals cannot be shipped.

Items may be subject to environmental or disposal fees. Fees may vary by province.

PROUDLY CANADIAN.

PRIVATELY OWNED.

Our Canadian roots run deep. For nearly 100 years, our privately owned business has been serving hardworking Canadians. We do that by keeping prices fair, supply chains strong, and shelves full of essential products that help keep industry moving.

OUR ROYAL SERVICE PROMISE

We aim to provide the tools and equipment you need with an exceptional buying experience. We will gladly repair, replace or refund any product.

NO SALE IS FINAL UNTIL YOU'RE SATISFIED!
